TOLMIE SAYS 15,000 UNEMPLOYED IN B.C. NEED AID

M.P. and Companions Drowned In Yacht Wreck Off England

Commodore H. D. King and Five Others Victims of Gale Off Coast of Cornwall; Efforts of Lifesaving Crew Fail.

Fowey, Cornwall, Eng., Aug. 21.—At least six persons, among whom it was thought were two or three members of parliament and one or more women, were believed drowned when the yacht *Islander* was wrecked on rocks in Lantivet Bay, near here, during a violent storm yesterday evening.

The yacht had been chartered by Commodore Henry Douglas King, Conservative member of parliament, and there was grave apprehension that he, with other members who had been invited to accompany him on the cruise, had perished when the yacht met disaster in a Channel gale.

The yacht, which was owned by Lieut.-Col. John N. Diggle, had been taken part in regattas of the Royal Yacht Squadron along the south coast. It was stated here that Lieut.-Col. Diggle was not aboard the yacht when it was wrecked.

STATEMENT BY MRS. KING

Freshwater, Isle of Wight, Eng., Aug. 21.—When news of the disaster to the yacht *Islander* off Cornwall was communicated to-day to Mrs. King, wife of Commodore H. D. King, she said:

"My husband had been cruising on the yacht since last Saturday week. No other member of the family was with him. He had been living on the yacht, sailing in at various ports. I received a letter from Dartmouth yesterday in which he said he was enjoying the trip immensely. I am leaving at once for London. So far as I know there were no women on board the yacht."

Point Pleasant, N.J., Aug. 21.—A yachting cap answering the description of that worn by Van Lear Black, Baltimore publisher, lost from his yacht off the New Jersey coast Monday night, has been found by two fishermen.

Williams Equals Canadian Record At Empire Games

Civic Stadium, Hamilton, Ont., Aug. 21.—Percy Williams, Vancouver, running in the second heat of the 100-yard race at the Empire Games here this afternoon, equaled the Canadian record of 9.3 seconds, beating W. Gerhardt of South Africa and J. H. Brown of Canada.

The first heat was won by Johnny Fitzpatrick, Canada's prominent promising entry in the opening heat, who flashed through to an easy win in ten seconds flat.

BURNABY BOARD IS OPPOSING FOUR-YEAR HIGH SCHOOL PLAN

West Burnaby, B.C., Aug. 21.—Defying the order of the provincial Department of Education, the school board last night instructed the principals of the Burnaby South and the Burnaby North High Schools to ignore official regulations regarding establishment of a four-year high school course.

The trustees voted unanimously to oppose the action of the provincial Council of Education in ordering a four-year course without providing for the additional expense involved.

CHAIRMAN'S VIEW

Chairman James P. Dickson dissented from the board's action in instructing its principals to ignore the provincial order, declaring the school board had no jurisdiction in the matter. Other members of the board, however, insisted and the resolution instructing the principals to inform the principals not to provide for a four-year course was passed by a majority vote.

DUTY ON FIR DOOR IMPORTS IS INCREASED

Federal Cabinet, Reporting Dumping From U.S., Raises Valuation Level

Ottawa, Aug. 21.—Sir George Perley, Acting Prime Minister, to-day stated the government had taken action to stop the dumping of large quantities of fir doors into Canada. He announced the passing of an order-in-council fixing a "reasonable price" for the valuation of such imports for customs duty purposes "in order to preserve the home market and to give Canadian workmen a fair and equal opportunity of producing such doors."

But Manufacturers Must Not Charge Unfair Prices, Says Acting Premier

The daily attendance at the Victoria Exhibition at the Willows has this year exceeded last year's record by a large margin, yesterday's paid attendance being more than 300 persons above the gate registered on Citizens' Day last year.

The attendance for the first three days is estimated at over 93,000 persons, this figure being based upon experience that five visitors pass the gates for each paid admission.

Yesterday there were 10,557 persons who paid to see the fair, the evening attendance exceeding all records. On Tuesday the gate took in 2,430 admissions and the Monday gate was 2,532 persons, an aggregate for the three days of 18,619 persons paying entrance charges. This compares with 17,555 paid admissions for the first three days of last year. The evening attendance has become of first rate importance, and the crowds lining the exhibits last night made progress slow in all the buildings.

The programme for this evening will include a number of special attractions, including a free concert by the Victoria Boys' Band, to be given in the grounds opposite the main building, and a display of horsemanship in the Horse Show Building, to be attended by Lieutenant-Governor Bruce.

"I quite agree with the board regarding a protest, but when you propose to ignore the instructions of the department and so inform your principals, you are holding yourselves up as rebels. It is quite evident they will be upheld and the board will look foolish."

NO INCREASED AID

Trustee C. M. M. Harper declared the Minister of Education had agreed Burnaby should have more assistance financially, but so far no further aid had been granted. This might bring the matter to a head.

"We have tried to get a definite ruling from the department whether the four-year course is compulsory," he declared, "and we have failed to obtain it. By instructing the principals to arrange for a three-year course only we shall get a definite answer."

Trustee Richard Baxter and T. E. Winter supported Trustee Harper's stand. Trustee C. G. Fowler was not present.

BIG SALARIES SET FOR NEW LIQUOR BOARD

\$30,000 a Year Cost Two and One-half Times That Under Davidson

Rush Now on For Jobs and Commissions Under Political Control Change

On a new high salary scale, with H. B. Thomson, the chairman, receiving \$15,000 a year, the new Liquor Control Board appointed by Premier Tolmie's government is in office to-day at the headquarters of the board at the Belmont Building.

W. F. Kennedy and W. J. Baird, the other two members of the board, each have been put on salary of \$7,500 a year, making a total of \$30,000 a year for the three-man board.

Much surprise was expressed in political and business circles to-day at the sudden heavy increase in the salary cost of the Liquor Board members at a time when the liquor profits available for municipalities were dropping.

Hugh Davidson, the retiring member of the one-man board, which has been in charge of liquor administration, has been receiving a salary of \$12,000 a year.

Under Mr. Davidson's administration, which cost the Province between one-half and one-third of the cost under the new arrangement, the administration has been carried on without any complaint as to its efficiency. It was pointed out to-day that it is not likely that any changes will be made in the methods employed by Mr. Davidson.

The cost of the new board will be even greater than that of the first board of three, the members of which had to originate and establish the sale and distribution system, which is now operating without requiring much attention, it was also pointed out. The salary list of the first board was \$7,500 a year to the chairman, A. M. Johnson, K.C., and \$5,000 a year each to the two other members, Col. W. E. Winslow and James Falconer.

The announcement from the Parliament Buildings to the government's newspaper organs says that the new board's first job will be to deal with

Lord Irwin to Talk Soon With Jayakar About Peace Terms Advanced in India

Simla, India, Aug. 21.—Lord Irwin, Viceroy of India, to-day received a letter from Mahatma Gandhi, carried by Sir Tej Bahadur Sapru and M. Jayakar, from the Poona jail. The Viceroy indicated he would see Mr. Jayakar soon.

The letter was understood to contain the Mahatma's terms for cessation of the civil resistance campaign in connection with which many hundreds of Congress volunteers now are in prisons throughout India.

RESULT OF CONFERENCES

The communication was written after conferences among the Congress leaders, including Mrs. Sarojini Naidu, the pandit Motilal and Jawaharlal Nehru, and the two moderates who instituted the parleys for peace.

It was said to-day that the result of the Poona conferences would be considered by the All-India Congress working committee at Delhi next Tuesday.

New Zealand Raises Duty On Canada Autos

No Comment From Bennett Government on Withdrawal of Preferential Rates on Imports From This Country

Wellington, N.Z., Aug. 21.—The government of New Zealand has decided to place Canadian motor vehicles and accessories on the general tariff list, thus depriving them of the preference now accorded. This was announced by Hon. G. W. Forbes, Prime Minister, in the House of Representatives to-day.

The Prime Minister gave a lengthy review of the position of trade between Canada and New Zealand and told of the government's negotiations to conclude a direct trade treaty with Canada. Mr. Forbes added the New Zealand administration had informed the New Zealand Government it could not extend the Australian trade treaty rates to New Zealand products beyond the month of October, but that Canada was willing to negotiate a direct trade agreement.

RECIPROCAL ACTION ASKED

The New Zealand Government, said Mr. Forbes, was willing, pending the completion of a direct agreement, to place Canadian motor cars on the Empire preferential tariff list, once more providing Canada would reciprocate in a substantial manner.

One In Five of Women In Jobs In B.C. Married

Of 20,766 Female Workers in Province, 15,789 Are Single; Fruit and Vegetable Trade Draws Largest Number of Married Women; Average Wages Above Rate Set by Board, Says Report Issued To-day.

Reference to the much discussed subject of married women workers is made in a report on the subject released to-day by the Minimum Wage Board. A table compiled shows that the proportion of married, widowed and single women employed in British Columbia have changed hardly at all during the last three years contrary to the belief of some who are opposed to married women earning their living or augmenting the family finances.

The report shows that 20,766 women are employed in occupations and industry reporting under the Minimum Wage

Act 4,178 are married women. The percentage is 20.1. Of the remainder employed, 801 are widows and 15,789 single.

In office work single women outnumber the married women by nine to one, there being 546 married women and 4,976 single women. The fruit and vegetable trade engages more married women than any other industry 900 drawing wages from this source.

Office work provides wages for more single women than any other branch with the mercantile branch, employing 3,339, running a close second. In the telephone and telegraph service, 1,830 out of 2,023 employed are single women. One hundred and sixty-five married women are employed and twenty-eight widows.

PATERNALISM BARRED, SAYS ROBERTSON

Federal Minister of Labor Makes Statement at Conference on Employment

Tells Delegates at Ottawa Legislation Being Drafted By Bennett Cabinet

Canadian Press

Ottawa, Aug. 21.—The Federal Government did not propose to adopt paternalism as a policy in dealing with unemployment, but it did propose to help the people to help themselves, Senator G. D. Robertson, Federal Minister of Labor, told the Employment Service Council of Canada at its opening session here this morning.

"I do not for one moment suggest the present unemployment is due to any government or lack of governmental activity," he said, "but it is not the business of the Government of Canada to look after the world as a whole. It seems to me the problem first to be faced is for the government to look after the people of Canada and assist them to look after themselves."

MACHINERY INCREASES

Among the causes of unemployment the Minister referred to development of labor-saving machinery, particularly in the west. Then there was the question of immigration. Declining it was his duty to see the people of Canada had employment before inviting others to come in, the government had taken steps to restrict immigration, he said.

SESSION OF PARLIAMENT

A special session of Parliament was called to deal with the situation. The Government, Senator Robertson said, proposed to pass legislation enabling it to invite the co-operation of the provincial and municipal authorities and the co-operation of employers of labor with a view to providing all the employment possible as quickly as it could be done.

Oak Bay police were to-day

evening were reported have held up Oliver Tyrer, 230 Estevan Avenue, in his own home and with his own gun, robbed him of \$40 and then locked him in a cupboard.

Tyrer was able to give a meagre description of his assailants. Although he said he did not actually see them, he judged from their voices they were young men and formed some idea of their size.

Police who visited Tyrer's home found evidence to indicate he had been about in a bedroom cupboard and his suitcase had been rifled.

According to the story told by Tyrer, he left his house early in the evening, leaving the doors unlocked, and returned about 10 o'clock, entering by a side door. He went through the kitchen and into the hallway.

While fumbling for the light switch, a flashlight was shown on his ribs. Something hard was pressed in his ribs. He was ordered to step into a room off the hallway.

Two Passengers and Drivers Drowned in Accident in Michigan Town

Sault Ste. Marie, Mich., Aug. 21.—A taxicab driver and his two passengers were drowned here yesterday evening when the cab went into the Michigan Northern power canal.

The driver of the cab was Richard Flynn, but the names of the two passengers have not been learned. Firemen and coastguards were called to attempt to raise the car.

The cab, which witnesses said was going at a normal speed, suddenly swerved and crashed through the railing along the embankment of the canal.

Provinces' Delegates At Ottawa Debate Employment Plans

Senator Robertson, Minister of Labor in Bennett Cabinet, Estimates Unemployed at Present in Canada Total 200,000; Premier Tolmie Suggests Subsidies for Ships Carrying British Columbia Export Lumber.

Canadian Press

Ottawa, Aug. 21.—Fifteen thousand persons in British Columbia will be unemployed during the coming winter, Premier Tolmie this forenoon told the Employment Service Council of Canada at its opening session here.

Sensor G. D. Robertson, Federal Minister of Labor, estimated there were at present 200,000 people out of work in Canada.

The important thing in dealing with unemployment in British Columbia, Premier Tolmie told the conference, was the extension of export markets. Australia imported large quantities of lumber, but only eight per cent of it came from British Columbia. The United States was buying its steamship lines readily, ostensibly for the purpose of carrying mail, but he suspected it was really for the purpose of carrying lumber.

He thought an investigation of the shipping situation in the Pacific should be made and if no other way of keeping the ships running could be found, bonuses should be granted.

AGRICULTURAL IMPORTS

Another factor in the British Columbia situation, he said, was the dumping of agricultural products from the United States. Premier Tolmie thought the dumping clause should be applied to fruits at certain seasons of the year. He also urged a careful survey of the \$900,000,000 worth of imports coming to Canada each year, and what could be produced profitably in Canada.

A peculiar factor in British Columbia's employment situation was the number of drifters who came in during the winter. These men should not be allowed to come in as a burden, said Premier Tolmie.

CALLED BY ROBERTSON

The meeting opened to-day is the regular annual meeting of the Employment Service Council of Canada, called at this time by the Federal Minister of Labor to consider the unemployment situation. Clark Reilly of Ottawa, president, was in the chair. The members of the council represent the provincial governments, the Federal government, labor organizations, social service organizations and associations of employers and of employees.

Following the opening remarks of Senator Robertson, Federal Minister of Labor, representatives of the different provinces spoke of conditions under their jurisdiction.

B.C.'S POSITION DESCRIBED

Premier Tolmie said conditions in British Columbia, were serious. The declining price of silver and other metals, which had caused many of the smaller mines to close down. A falling off in the off-shore demand for British Columbia products and the logging camps to curtail production, and there was a reduced demand for paper.

At its last session the provincial legislature had doubled its appropriation for public works. A grand many men have been given work on roads and public buildings, said Dr. Tolmie. There was still much room for further road building, but there was a limit to the funds which could be provided by the provincial government.

He expected there would be about 15,000 unemployed in the Province during the winter.

Sensor Robertson said that in eighty-four centres which had replied to his queries there were 13,240 people out of work in Canada at present, and it was estimated that number would increase to 150,000 during the winter.

The figures, he pointed out, did not include fourteen or fifteen centres which had not reported or the number who were out of work in numerous small centres throughout the country and in rural areas.

Sensor Robertson said he considered the figures received were a conservative estimate. It was not unreasonable to say there were now 200,000 people out of work in Canada. Figures compiled on August 15, he stated, showed that out of 266,897 union men in Canada, 26,700 or 10 per cent were out of work.

SAANICH FAIR NEXT MONTH

Largest Exhibition in Years Expected With Addition of New Classes

The directors of the North and South Saanich Agricultural Society held an enthusiastic meeting in the Agricultural Society hall on Monday evening, when final arrangements were made for their annual fall exhibition, which is to be held on Tuesday and Wednesday, September 16 and 17. It was stated that the silver cups, medals and other prizes will be on exhibit in Victoria shortly. There are sixteen cups for competition and thirty-two medals.

Unusual interest is being taken in the cattle section, in which two classes have been added.

His Honor the Lieutenant-Governor has donated a silver medal to be presented for the best female animal in the show, any age or breed, raised by the exhibitor.

The other new class is of interest to boys and girls under sixteen years of age, who have raised a heifer calf, sired by a registered bull, the calf to be under one year old. First prize is a silver cup donated by George Malcolm, secretary of the Saanich Jersey Cattle Club, and the second prize of a silver medal is presented by Capt. C. R. Wilson, Heather Farm, Sidney.

The old-time quadrille competitions, which is one of the main features in the Highland events' programme, is anticipated by old-time dancers with great interest, both from a spectators' and competitors' point of view. Prizes are being donated by the Saanich Pioneer Society.

The usual school sports will take place, when nineteen schools from Saanich and James Island will compete for two silver cups, donated by David Spencer Limited and the Saanich Board of Trade.

The annual ball will be held on the evening of September 19.

MEXICO NEEDS SEED POTATOES

Commerce Chamber Notified of New Market For Island Growers

Attention is drawn by the Victoria Chamber of Commerce to the prospects offered Vancouver Island seed potato growers to find a market for their product in Mexico on which subject the chamber has received a report from C. Noel Wilde, Canadian Trade Commissioner.

Mr. Wilde points out that there is a fair demand for potatoes in Mexico which is principally supplied from local crops. Seed potatoes now used are imported from the United States as it has found that local seeds deteriorate rapidly. The potato when planted in the company of the regions of Mexico and Central America tends to revert to its wild state and is essential to import seed to maintain the quality of the crop and these imports have increased fairly rapidly during the last few years.

This increase is partly due to the efforts of private growers but principally to the energetic action of the Mexican Department of Agriculture which has shown a keen and intelligent interest in the improvement of the potato crop. The best information available indicates that approximately 2,000 tons are imported annually, all from the United States.

Experimental shipments have been received from Germany and Canada but they have been on too small a scale to influence the market. German exporters have during the last two years made strong efforts to secure a share of the trade. The Mexican Government has expressed willingness to make a thorough test of any seed potatoes which may be sent from Canada for that purpose.

VETERANS GIVEN WORK AT FAIR IN TORONTO

Toronto, Aug. 21.—The Toronto branch of the Employment Service of Canada was the scene of considerable excitement and some pathos yesterday. For the second day in succession nearly 1,000 men lined up hoping to get jobs at the Canadian National Exhibition.

Officials, hearing there were some non-veterans in the line, sent out a message saying there were no jobs for those men. The message became garbled in transmission and the men became excited and began pushing. One man fainted from the suffocating pressure.

The unconscious veteran was taken into the office. When he came to he found he had been waiting at the door since 10 p.m. Tuesday. He was given a job, and almost fainted again on hearing the good news.

FARMERS' CREDIT IS DISCUSSED

Prince Albert, Sask., Aug. 21.—Soldier settlers and ordinary farmers are in different categories when it comes to securing loans from banks, declared C. C. Gamble, local Bank of Montreal manager and head of the local clearing house, yesterday when he was asked for a statement regarding the claim of Soldier Settlement Board officials that many soldier settlers were prevented from cutting their grain crops, being unable to borrow money which was to purchase binder twine.

The government had first claim on the soldier settlers' security, Gamble explained. Therefore, the banks could not be expected to be as open-handed as with ordinary farmers. Banks loaned money to soldier settlers, he continued. If investigations at the Soldier Settlement Board office revealed their financial standing was good, in no case had a soldier entitled to expect credit from a bank been refused.

AMERICAN UNION IS CRITICIZED BY ARGENTINES

Williamstown, Mass., Aug. 21.—Argentina will withdraw from the Pan-American Union "as soon as the new generation gets the reins of government in its hands, or perhaps before," Donato Justo, former chancellor of the Argentine Embassy at Washington, told the general conference on Pan-American problems at the Institute of Politics here yesterday.

Mr. Justo, son of the former Minister of War, Augustin Justo, said he reflected Argentine public opinion and that he founded his prediction on the "lack of equality and sincerity" in relations between the United States and his country.

He said that before the Great War the people of Argentina were friendly toward the United States, but he added, "when the United States instituted an aggressive policy in the Caribbean area and revised old doctrines for its own benefit, we began to realize our position in the Western Hemisphere."

"We have no interest in what is called Pan-Americanism, and consequently I can assure you that as soon as the new generation gets the reins of government in the Argentine, Argentina will withdraw from the Pan-American Union," he said.

WORK FOR FORMER SOLDIERS URGED

Hamilton, Ont., Aug. 21.—Declaring that "positions are being filled every day by foreigners, in many cases not naturalized, while returned men are being refused employment on government work," a resolution was adopted at the annual session of the Ontario command of the Canadian Legion here yesterday, "requesting both the Government of Canada and the Government of Ontario to see employment of some kind should be immediately found for veterans of the Great War who are now out of work and in necessitous circumstances."

Major Reg. Bowler of Ottawa, Dominion general secretary, representing the Dominion president, announced the 1932 Dominion convention would be held on battlefields of France, in conjunction with the Legion pilgrimage to Vimy Ridge.

PLANES GATHER AT CHICAGO FOR BIG RACE EVENTS

Chicago, Aug. 21.—While fast planes of contestants in three national air derbies were speeding toward Chicago from points on the nation's rim, advance squadrons of the air armada assembling for the races beginning Saturday already are here.

Among those here are a group of army fliers from Selfridge Field, Mich., and Langley Field, Virginia. They, and a score of contestants landed at the Curtiss airport, scene of the races, and took up their quarters in the various hangars as an army of carpenters drove the final nails in the grand stand which will seat 60,000 spectators.

The official reception committees awaited the arrival to-day of a delegation from overseas—Flight-Lieut. R. L. R. Atcherly and Lieut. Preston of Great Britain, Marcel Doret of France, Capt. Fritz Lohse of Germany and Marshal Pietro Colombbo of Italy. They are en route here by train. Their craft will be unpacked and assembled here.

K. OF C. LEADERS HEAR CARDINAL

Boston, Mass., Aug. 21.—The Knights of Columbus, assembled here for their forty-eighth annual supreme convention, heard Cardinal O'Connell yesterday for the second time since the convention started.

An executive session was made public during the Cardinal's speech. The prelate told the Knights that "the welfare of the world is not depending on any one set of people. We must all work together."

"We must arouse ourselves to the fact that we are needed in life," he said, "and that there is room for work among all, Jew or Gentile. The Knights of Columbus are not only a religious organization, but a patriotic one, giving service to God, to the church and to the country."

The Cardinal endorsed the annual report of Supreme Knight Martin J. Carmody of Grand Rapids, Mich., particularly that part which dealt with the importance of the lay apostolate.

Mickey Walker Wins Decision

Newark, N.Y., Aug. 21.—Mickey Walker, world's middleweight champion won a ten-round decision from Vince Fargione, of Philadelphia at Dreamland Park yesterday evening. Walker floored Fargione for a nine count in the first round, and for a one count in the eighth.

"Tremendous Competition" Faces Canada

Toronto, Aug. 21.—In an editorial article The Financial Post says: "As The Financial Post sees the world situation to-day, we are working against the most tremendous competition. An example of this is seen in the development of Russia, under German inspiration and, to a great extent German direction. Russia is hankering for the world for the ablest men with outstanding experience in their particular field, and is already contesting our supremacy in two of our great exports, wheat and pulp."

"A Dominion Government Cabinet composed of men selected for their political services can hardly be expected to give Canada real leadership in facing such world competition."

MAY RECEIVE FOOD BY PLANE

Anchorage, Alaska, Aug. 21.—In the event the schooner C. S. Holmes of Seattle is unable to reach the village of Barrow, Alaska, with food supplies, Pilot Frank Dorbandt will undertake to transport provisions from the ship to the shore. He has radioed Point Barrow to this effect. The schooner is now near Point Barrow, northernmost tip of Alaska, but may not be able to land at the village because of heavy shore ice.

Dorbandt proposes to fly to the far north aboard a seaplane, land on the water near the Holmes, load his plan with provisions and then fly to a lake near the village, where his cargo could be unloaded for transportation by dog team.

FIRE DESTROYS GRAIN ELEVATOR

Winnipeg, Aug. 21.—Losses estimated at \$75,000 resulted yesterday evening when fire destroyed the Assiniboine Grain Company elevator in St. Bonifacé.

face, across the Red River from Winnipeg. The structure was valued at about \$60,000 and it contained some 30,000 bushels of barley, property of Wiley, Low & Co., grain merchants. Insurance covers the losses, it is stated. All through the night a dozen members of the St. Bonifacé fire department played streams of water from hose lines on the smouldering grain. Within an hour after the blaze had broken out in the upper part of the structure, the building crashed to earth, spilling burning grain to all sides. No one was hurt. The terminal elevator of the Manitoba Wheat Pool nearby was protected by streams of water and did not catch fire. A blazing box car on the track nearby, however, almost set the elevator afire before the car was shunted down the track to an open space.

BIG ABITIBI POWER SCHEME IS APPROVED

Federal Minister of Public Works Announces Order-in-Council Passed

Canadian Press
Ottawa, Aug. 21.—Plans of the Ontario Power Service Corporation Limited for construction of a dam and an immense hydro-electric power development in Northern Ontario, providing employment for 1,000 men, have been approved on recommendation of Hon. H. A. Stewart, Minister of Public Works. Announcement of the approval by order-in-council was made by Mr. Stewart to-day.

ON ABITIBI RIVER
The development now authorized will be on the Abitibi River at Abitibi Canyon, sixty-four miles northwest of Cochrane. The corporation is a subsidiary of the Abitibi Power and Paper Company Limited. As a term of the approval of the plans the company is requested to submit full information as to its capital structure and the disposition of its stock and securities.

GREAT OUTLAY
It is understood a contract has been awarded by the Ontario Power Service Corporation to the Dominion Construction Company, involving an expenditure of approximately \$30,000,000 for the construction of this work. As a result of the project, 275,000 horsepower will be furnished for northern Ontario development.

Work on the project is expected to start immediately.

BIG SALARIES SET FOR NEW LIQUOR BOARD

hundreds of applications for jobs which have poured in on Mr. Thomson ever since his appointment was announced some weeks ago.

Changes are also being made in Victoria and Vancouver in connection with liquor purchases.

LITTLE CHANCE FOR PRICE CUT
Whether there are to be any reductions in the price of liquor could not be learned to-day. It was recalled that Attorney-General Pooley at the last session of the Legislature said that the question of reducing liquor prices was "being given consideration," but it was said to-day that with the liquor board's profits declining and its costs rising through the higher salaries for the board and the increased staffs worked in the stores throughout the Province to satisfy political demands under the new political control of the board, it is unlikely that there will be any price reduction of note.

STOCKMEN'S DINNER
To-morrow at noon the annual stockmen's dinner will be held in the grounds restaurant, the stockmen and attendants being the guests of the directors. The speakers will include Hon. William Atkinson, Minister of Agriculture; Mayor Herbert Anson, and A. D. Patterson, of Delta.

The annual meeting of the British Columbia Agricultural Association will be held to-morrow evening at 8 o'clock at the restaurant building.

The annual stock judging competition will be held to-morrow morning at 10 o'clock, and will be divided into three classes, for competitors over twenty-one, under twenty-one and for boys and girls under eighteen. Each class will have four prizes.

YOUTHFUL EXPERTS

The children's flower and vegetable judging competition was held yesterday and was won by Melva White, who scored 133.5 points of a possible total of 160 points. Second place was taken by Gwendolyn M. Gardner, who scored 101.5 points. Eddie Brown was third with 96.5 points, there being seven children competing.

The sheep shearing competition will take place to-morrow afternoon at 3.30 o'clock and is expected to attract many spectators.

NEW ZEALAND RAISES DUTY ON CANADA AUTOS

(Continued from Page 1)

In an interview later to-day, the Premier pointed out that of the twenty-seven makes of United States cars on the New Zealand market, only five were paying the rate of duty charged on United States cars, the remainder being admitted under the preference as they were assembled in Canada.

DELEGATION HEARD

Mr. Forbes yesterday received a delegation representing British motor manufacturers. His visitors claimed the preference given to cars assembled in Canada was working out unfairly against Britain. The deputation showed almost as many Canadian as United States cars were imported last year, \$6,450,000 having been spent on United States cars and \$6,240,000 on Canadian cars. The Prime Minister assured the deputation of his sympathy then, and to-day's announcement was the sequel.

NO OTTAWA COMMENT

Canadian Press
Ottawa, Aug. 21.—No official comment was available to-day on the announced decision of the New Zealand government to place Canadian motor vehicles and accessories on the general tariff list.

"BUILD R.C. PAYROLLS"

Under the former rate, which applied to Canadian motor cars, the tariff, inclusive of "body duty," was twenty per cent. for the first \$1,000 and fifteen per cent. on the value over that amount. On July 22, however, that rate was increased to 21 1/2 per cent. up to \$1,000, and 16 1/2 per cent. on the remainder of the value, if any.

NEGOTIATIONS PLANNED

The whole question of Canada's trade relations with New Zealand will, it is expected, be canvassed by the government with a view to the negotiation later of a new direct trade agreement to replace the one which will lapse in October.

FINE STOCK PARADE

The magnificent parade of livestock which took place yesterday afternoon at 2 o'clock attracted a large audience of delighted spectators. The parade was witnessed by Lieutenant-Governor Bruce, Sir Norman Kaier of Sydney, Australia, and Mayor Anson.

The parade included 100 horses, each gay with ribbons; over 350 cattle, the leaders of each section being decorated with ribbons emblematic of honors won here. In addition there were goats and sheep, led by many kids.

THE REAL PHENOMENON

THE REAL MYSTERY SURROUNDING

One Aimee Semple McPherson of Los Angeles does not lie in the circumstances of her present indisposition. Whether she had her face lifted in Budapest, or is wearing bandages as the result of a fight with her inebriated mother Kennedy which blackened her eyes and broke the Kennedy nose, or is seriously ill as her board of managers announces, or will be all right in a day or two as her physician declares, is merely the backwash of a much more perplexing phenomenon. The McPherson publicity methods are so well known by this time that nobody of any discernment would dream of calling in Mr. Sherlock Holmes or Mr. Hawkshaw to reveal the latest plot.

The real mystery is presented, not by Mrs. McPherson, but by the public which patronizes her show. What is the explanation of her large following in a community which modestly acclaims itself to be the most progressive place in the universe—not those who go out of curiosity, but those who honestly believe she is endowed with supernatural qualities and surrounded with the aura of divinity? And she is only one of a small army of her kind, whose aims and purposes are transparent enough to those who have eyes to see and minds with which to think, but who, nevertheless, are doing a roaring business. Not long ago a young humbug who formerly lived in this city and afterwards served a term in prison in Chicago, went to Toronto and, posing as an abstruse philosopher, filled Massey Hall with worshippers, many of whom were supposed to be people of intelligence.

There are more quacks and charlatans of various kinds operating successfully in the world to-day than ever there were before. Anybody with enough brass, an imposing front and a live, sensational publicity agent can sell a religious or medical cure-all, no matter how far-fetched or fantastic. If the unemployed of the world had a little more imagination, enough assurance and less scruples, it could raise itself to affluence and remove humanity's economic ills by starting a new religious cult or some other form of quackery. A few unintelligible incantations, a Dahomey war-cry and dance, a small squad of decoys at four dollars per head a day, and plenty of sensational publicity, and the thing is done. Mr. Barnum secured the same effects and made himself a rich man largely by this means, only he called his show a circus.

All this happens in a world which has more educational institutions under various heads than it ever had before, a world which is spending countless millions of money and oceans of energy on the intellectual advancement of the race. Yet, a large part of mankind in the mass responds to quacks to-day as readily as the aborigines of this continent responded to the sorceries of their medicine men three centuries ago, or as the inhabitants of an African jungle respond to the tom-toms of their voodoo priests. We can explain the credulity of barbarians by the fact that they have not learned to think logically; their reasoning processes never have been developed. Is this also the explanation of the gullibility of civilized society? Is the human mind being filled with the knowledge of everything except the knowledge of sound and sane thinking?

Beyond doubt, whatever Aimee Semple McPherson and her kind may have done, they have shown us, by the success of their methods, that notwithstanding its pretensions of progress, a considerable part of modern society under its thick veneer is just as gullible as society was thousands of years ago. Even many of the ancient Greeks used to laugh at the antics of the priestesses of Delphi.

A FINE WORK

THE AWARDED OF TWO MORE

provincial university bursaries by the Imperial Order Daughters of the Empire is a reminder of what this great organization has done in an educational way for the dependents of men who fell or were disabled in the Great War. Miss A. B. Cooke, who attended the annual meeting of the national chapter at Montreal in June, put it clearly in her report to the local municipal branch of the Order recently. She then said in part:

"Daughters of the Empire throughout Canada have raised a total of \$272,338.73 for their memorial educational scheme, of which British Columbia chapters have contributed \$45,405.40 to date. From this sum, ninety-six students have been awarded bursaries valued at \$1,200 each, with fifteen more to be awarded this year, and altogether, to date, \$72,850 in scholarships to dependents of the men who fell or were disabled in the great war, while \$39,470.37 has been expended in war memorial pictures for presentation to schools throughout the Dominion.

This, of course, is merely the bookkeeping feature of the service the Order has rendered in this regard. What is more important still is the fact that practically all the boys and girls to whom bursaries have been awarded have done exceedingly well in these university courses and afterward. Very few of these students would have been able to enjoy the benefits of a university education if it had not been for the I.O.D.E. bursaries. This is a splendid work and the Order is to be congratulated upon the outstanding success which has attended it.

TRADING WITH RUSSIA

WITHIN THE LAST FEW MONTHS

Russian coal has entered Canada. The charge has been made that it sells cheaply because it is mined by convict labor. If proof exists to this effect, it has not been made public. Very likely the charge could be substantiated. The neighboring republic recently placed an embargo on the importation of pulpwood from Russia on similar grounds. But an investigation followed and the United States Treasury lifted the embargo, declaring the evidence that this commodity was produced by convict labor to be "indirect and inconclusive." It supplemented

this decision with a notification that future requests for embargoes would have to be accompanied by conclusive proof of allegations.

Almost simultaneously with this announcement the head of the Russian trading organization in the neighboring republic let it be known that \$40,000,000 worth of American farm machinery had just been ordered. While the names of the firms sharing the business were not made public, it is pointed out that these orders will mean increased employment in three well-known producing centers, insuring capacity production for six months. In view of the embargo which had been placed on Russian pulpwood the news of these orders came as a surprise. To opponents of the policy of trading with Russia it is being regarded as another boost to Communism. Nevertheless, several countries in Europe seem to be committing themselves more deeply to a fuller economic exchange with the Soviet republic.

It is being argued that there is a good deal of strategy in the nature of Russia's exports to Canada and the United States. Part of her exports are to pay for imports, but part of them are, one business journal contends, and increasingly will be, deliberately malicious, intended to foment discontent. There is in Canada and the United States, just as there is throughout the British empire, antipathy towards Communist policies of coercion, atheism and competition on a non-economic basis. At the same time, the fact that Russia is succeeding, so far, in meeting all her financial obligations abroad without a foreign loan, is inspiring some grudging respect.

From any distance outside of Russia it is difficult to understand just what is going on in that country, what her internal economic condition is, or what developments may be expected from time to time. Supposedly trained observers, impartial or prejudiced, have toured the country by the score. But they have seen only what things they have been permitted to see, or just what it pleased the Soviet authorities to show them. In the main, neither the system of government at Moscow nor the manner in which the Communists respect what other countries consider a proper social order interests the manufacturer with commodities to sell. If he is sure of a profitable contract, he worries very little.

One factor it might be well to keep in mind is that as business between Russia and other countries expands—Russia will make very little headway with exports produced by convict labor—the Soviet government sooner or later may realize that trade will benefit a country only if it shall be conducted according to well-established commercial principles.

WHAT OTHER PAPERS SAY

A GREAT CANADIAN SCIENTIST

The Ottawa Journal

There are triumphs of war, triumphs of peace; the triumphs of politics, out of a feverish contest of two worlds in which we have just emerged, and the triumphs of science. In all of these Canada has had some share, and a somewhat creditable one. Perhaps in science of late—science embracing a rather wide field—she has forged ahead of other achievements. A number of our most distinguished young scientists, unfortunately, are residents of the United States, and as Canadians we hear very little of them.

In the din of an election campaign there has just returned from Great Britain, unheralded and practically unmentioned upon a Canadian not yet past middle age who has won the highest honors the astronomical world can bestow. We refer to Dr. J. S. Plaskett, Director of the Sanction Observatory, near Victoria, B.C., who, before that observatory, which has the second largest telescope in the world, was built, was a member of the staff of the observatory here in Ottawa. He is among the world's greatest mathematicians, and his discovery in astronomy have been among the most outstanding during the last half century at least.

As proof of that statement it is only necessary to state that during an absence of three months in the United States and Great Britain he was awarded the Rumford gold and silver medals, these medals being presented under the auspices of the American Academy of Arts and Sciences, Boston, the presentation following a dinner presided over by the president of the Harvard Medical Department. The Rumford Premium is a very old foundation, dating as far back as 180 years. Dr. Plaskett was selected this year for the award on account of his researches in stellar spectroscopy and aeronautical work generally. The English distinction is regarded as a still greater honor, because of the standing of the Royal Astronomical Society, whose gold medal for achievements in astronomy was awarded him. In connection with these crowning Dr. Plaskett read three papers, listened to and acclaimed by the leading astronomers of Europe and America, entitled "Diffuse Matter of Interstellar Space," "The Physical Properties of the High Temperature Stars," and "The Rotation of the Galaxy." He, however, delivered many learned addresses while away, and comes back loaded with honors, which place him in the first rank of scientists. For nine years in his observatory at Sanction, with almost unequalled facilities for observation, he applied himself with marvelous industry to solving the unsolved mysteries of the skies. His discoveries in that time have been epoch-making. As a purely Canadian product Canadian should, and undoubtedly will, be proud of Dr. Plaskett, who has reflected so much glory on his country in his particular branch of science.

A THOUGHT

So that a man shall say, Verily there is a reward for the righteous.—Psalm cxviii.

What is beautiful is good, and who is good will soon also be beautiful.—Sappho.

Twenty-five Years Ago To-day

From The Victoria Daily Times of August 21, 1905

Senator Wark died at his home in Fredericton, N.B., to-day, aged 101 years. He was the oldest legislator in the world.

An attempt was made to assassinate Queen Margherita, mother of King Victor Emmanuel of Italy, who is touring the Alps in an automobile.

Funds are being collected by a Socialist organization in New York with the object of bringing to the city the sailors, who mutinied recently aboard the Russian battleship Potemkin at Odessa, and finding jobs for them in other American metropolises.

A few nights ago the people of Dawson organized with a membership of 250 the International Society for Polar Research and Experiment. The ultimate object is to launch an expedition for the North Pole.

During the last few years a Victorian, G. J. Burnett, organist of St. John's Church, has contributed quite a number of compositions to the world of music, particularly sacred works. These have given him considerable prominence, his solos having been used by eminent vocalists under the most distinguished auspices.

The readers of this column continue to display their generosity—in a misguided fashion—and with devilish intent—but without the results desired.

By H. B. W.

THE GENEROSITY of this column's readers is really quite remarkable if they keep on sending me presents as tokens of their esteem. It is even possible that I may get something worth while some day. The latest comes from a gentleman who, in the past, has frequently manifested an interest in my views by criticizing them harshly, in the most friendly fashion, and by addressing me as "Dear George," which is not his name. This time he has sent me a Bulgarian stamp (used) bearing a portrait of old King Ferdinand, and some writing which I do not understand. I should like to feel grateful for this attention, but I cannot forgive its devilish intent. He wants to start me out as a stamp collector. Indeed, he boldly proclaims that "should you manifest any gratitude for this (damaged) gift, I may even be impelled by my generous nature to follow it up with a two-bit album and a packet of mounts, and also a packet of the German deflated currency stamps." The damaged and used portrait of Ferdinand is designed to form the nucleus of my collection and launch me out on the slimy sea of philately.

MY ABERRATIONS, alas, are well known in this district, and frequently impel by good friend Mrs. Glumbe, down the road, to assure her neighbor, Mrs. Blogg, that "the man's mad as an utter, my dear, but 'e can't 'elp it. It runs in the family like." All this is true, but I have not yet come to the point of collecting stamps, and my generous friend might as well know now, kindly but firmly, that King Ferdinand, damaged or undamaged, used or unused, is no temptation whatever to me. I can look him coldly in the eye and throw him into the fire, as I intend to do, unless the donor asks for him back over his own signature.

APPARENTLY HE was misled by my remarks the other night on the unfortunate portrait of the King now being circulated on Canadian stamps. This he construed as an "almost intelligent interest in stamp collecting." As well say that a man is a gardener because he dislikes cabbages. I did not recommend the collection of such stamps, but I have not yet come to the point of collecting any stamps, not because I am against harmless aberrations which, like my own, are the ornament of a full life. I condemned the collection of stamps because at bottom it is a cold-blooded commercial proposition, masquerading under the sacred name of hobby, which only last week brought one collector \$40,000 for a single sordid specimen of his business. Next time my generous friend had better send along a shovel, rake or hoe, which can be used in honorable pursuits.

A SIGNIFICANT MOVEMENT is under way over in the Old Land. A bachelor girls' exhibition is being held at Westminster, and to it "no man who is not accompanied by a woman will be admitted." You would suppose from this that the idea is to encourage matrimony and so, end bachelor girls' exhibitions by eliminating bachelor girls, an excellent objective. But this is not the primary purpose of the exhibition, the further purpose is to indicate the fact that women their freedom, but also for inflicting all the torture aforesaid.

IT IS EASY to understand that women are anxious to blame their own follies on someone else, but this is a bit thick. No man ever wanted women to wear boned collars, steel corsets or any of those other appurtenances of Victorian beauty which, in a more respectable day, were not usually discussed, written about, or advertised. This is proved by the fact that now, when women have their freedom, they have gone back on the sensible shorts that were once worn, those billowing, flimsy creations drooping on state occasions, to the ground. And I judge by the advertisements that the old-time corset was responsible for the trouble, since, under the more euphonious name of foundation garments, but a corset by any other name, I have no doubt, will pinch as tightly.

NO, SIR, men never liked women to torture themselves with such aids to beauty. All they did was to dislike them if they didn't do so and failed to be beautiful. And if the newly-freed woman had any real talent and capacity for freedom, she wouldn't care to be tortured, she'd like her to be free. The real truth is that women don't want to be free. They want someone to blame for their own instinctive incapacity for freedom.

WHILE THESE things were transpiring a mass meeting of men who believe in drug reform for the male sex was being called in Hyde Park. About half a dozen earnest reformers "in short, sandals, and open-necked shirts" appeared. Apparently the reform movement had got off to a tragic start, for just as the meeting was called England was deluged with rain and cool weather, and even an Englishman's zeal for reform is chilled at the thought of wearing shorts, sandals and open-necked shirts under these conditions. But at least the incident suggested a profound speculation. It is this: We men wear clothes which are utterly unsuitable to the weather for

two midsummer months of the year, but are sensibly garbed for the remaining ten. This is too bad and should be changed. But at least our record is better than that of women, who are sufficiently clad for the two months of midsummer but are idly dressed for the other ten.

FOR THE CHILDREN

To the Editor:—Yesterday my husband and I paid our first visit to the Solarium. Miss Gies, who received us, made an earnest appeal for an X-ray building and equipment, the cost of which would be \$20,000. At present the little ones are brought to Victoria for X-ray treatment. This should not be. Surely, there are 5,000 people in British Columbia willing to give \$1 each for such a cause. I therefore appeal to someone—man or woman—with more spare time and ability than I, to take up this work.

The affairs of the Solarium are everybody's business.

RACING EMPLOYEES

To the Editor:—I have been reading over the several letters appearing from time to time in your paper from people who are dissatisfied with the way the horse races are being conducted in Victoria. The main theme of contention is that there are more Vancouver men employed there than Victoria citizens. The parties writing these letters are not familiar with the true conditions as they are at the races.

Let me say that there are as many, if not more, Victoria men employed as in other years. True, some have been taken on, and then laid off. There is no doubt as some good reason for laying off these men, as one who knows the inside workings of the races, it takes people with a certain amount of experience in the handling of the public, and also one who has the ability to think and act quickly. Anyone who has tried to hold down one of the positions behind the machines or as a cashier.

The people writing these several letters are only quoting one side of the question. If any business man has a certain amount of money invested in any enterprise, he no doubt will see his employees who have experience along a certain line will be the best ones to employ. If the Vancouver people have investments in the Victoria

tracks, they, I am of the opinion, should have at least a say whom they should employ to look after their investments.

As far as the Vancouver races are concerned, one of your writers mentioned there were not any Victoria men employed over there, let me contradict this, as I know there were several of our Victoria men employed there, and will be going back again for the balance of the season. The same men are now employed at the Victoria meets.

The races as run here in Victoria this year, are run on a business basis, with each employee at his given position, without any turmoil or confusion, and I think all the men working there are well satisfied with the treatment accorded to them by the present management, who appear to be doing their best to give the citizens of Victoria the very best horse racing to the satisfaction of all concerned, and who should not be criticised by people jumping into the press with statements of which they know nothing about.

GAME AND ITS PRESENT TREATMENT

To the Editor:—As an old resident in this district would you publish this letter for the benefit of those who may not know the facts. An article appears in The Globe of August 20, boasting up the wonderful change for the better. How the country in general as far as the game is concerned is going ahead. Personally, I consider the game never in worse shape. I have seen possibly half a dozen pheasants this season as far as a dead mink run over by some cat on the highway. The outlying districts are alive with cats gone wild, stray dogs and other vermin. To complete the wreck I'd advise Mr. Bryan Williams to have an open season on all game (if one can find it) at any rate, does. There are a few left after last year's performance. They were shot to pieces still away on in December. Game protection conservation! Then there was a hint of the game tax being raised. What for, when there's nothing for the average hunter to shoot now? I see our local game warden is having the government car repainted. It used to be a bright green for summer use to blend with the fields and August. It is now it will be the color of the autumn leaves this fall so that we cannot see it. This is about all the game protection that I see. I think the game is better off, I think. They have five or six (possibly more) game wardens over there, likely to kill cats in the back streets. Then there is the game tax. As I said before there's little or nothing to shoot and yet we are told there is considerable improvement under our present game system. The report goes on to say additional men and equipment may be required owing to a greater number taking part in hunting. It is to be used that the game department doesn't hand you anything in the way of money or a present. Why hand it anything? As I may be wrong in my surmise of the game situation, would you let your readers be good enough to express their views if interested.

ANOTHER BREAKWATER WANTED

To the Editor:—With the prospect of serious unemployment ahead throughout Canada, it seems reasonable to suppose that the construction of large works of a public and national nature should receive favorable consideration at this time.

The harbor of Victoria ranks highly as a Pacific port of Canada. I suggest that there is considerable evidence that the outer harbor of Victoria requires additional protection from southerly and southeasterly storms. If this is so, the facts should be ascertained and public opinion educated to the necessity of further breakwater construction.

If it becomes apparent that sooner or later the port of Victoria must have further breakwater protection, then many reasons will arise why this work should be commenced at an early date.

The future growth of the port for seagoing travel would be favorably affected by the provision of a greatly enlarged expanse of sheltered water.

When the present breakwater was planned and constructed seventeen years ago, it formed but a portion of the projected scheme which anticipated the future construction of a second breakwater to extend from the vicinity of Macaulay Point. There is evidence to-day that the existing breakwater does not project far enough to properly shelter the Ogden Point pier and C.N.R. ferry slip, and, therefore, should be extended.

I think the citizens of the south end of Vancouver Island would appreciate a survey and investigation of the Chamber of Commerce, looking to some action in the matter.

TEXTILE MEN MEET TO PLAN TARIFF RAISE

Montreal, Aug. 21.—Manufacturers in the various branches of the textile industry in Canada will gather at Ottawa in September. The conference, coupled with the change of government and a chance of some favorable revision in the existing tariff regulations, is seen as a hopeful sign in the affairs of the much harassed textile industry in Canada.

The meeting was formerly scheduled to take place in June, but was postponed until after the general election. Now the affairs of government have been definitely settled, it has been decided to call the conference and go ahead with former plans. It will be no ordinary conference but a determined effort to find a way out of the difficulties which confront the industry.

The conference will result in manufacturers reaching some agreement in regard to the much discussed question of tariff. Though there may have been a tendency to over rate this side of the situation in the past, there is no

PAUL RANCH OF CHILLIWACK HAS BEST BULL

Big Classes in Holstein Cattle
Face Judge at Willows
Fair

A three-year-old bull owned by G. A. Paul and Sons, of Chilliwack, won the grand championship of the Holstein cattle section at the Willows Exhibition yesterday, the award being the feature of the most keenly contested section of the cattle show. The judge was G. S. Sim, of Winnipeg. In each class of the Holstein section there were more entries than ever previously seen at the Willows, ten animals being presented for inspection in some of the classes.

The Strathmore Alberta herd of the Canadian Pacific Supply Farm includes the junior champion Holstein bull and was one of the outstanding prize winners, but the breeders of British Columbia were strong in all sections, notable contenders being J. M. Steves and Sons and the Colony Farm of Esquimalt.

Charles Hawthorne won the grand championship ribbon for senior bull of the Guernsey breed, also taking other awards despite keen competition from many breeders.

A majority of the prizes in the Hereford beef cattle section were taken by the McIntyre Ranching Company.

Prize awards announced this morning were:

Sons of Canada Win City Amateur Baseball Championship

THE SPORTS MIRROR

HAS A new Jim Jeffries come to the ring with all of old Jeff's courage, endurance and punch and the famous old Jeffries' crouch? These are the questions aroused by the news dispatch the other night from Los Angeles which told of Al Morro's victory over Armand Emanuel, San Francisco brawler. This was Morro's second battle in the prize ring, and he defeated a skilful, hard-hitting adversary when he beat Emanuel.

But the important part of the story is the Jim Jeffries, the old heavyweight champion, was in Morro's corner, for the young Italian is his pupil. A couple of years ago Jeff took Morro to his ranch at Burbank, and has been schooling him ever since for the ring. Morro's first fight was with Tony Stabenus, Morro won by a knockout in eight rounds.

Emanuel and his management apparently considered the bout with Morro just a pleasant way to waste an hour or so between trains. The purse was small. Emanuel was expected to give the Jeffries protégé a boxing lesson that would hold the young man for a while. It turned out that young Morro knew almost as much of boxing as Emanuel himself, and under Jeff's mentorship, the brawler-boxer about the place with most unfeeling abandon.

Jeffries may be the first heavyweight champion ever to bring a protégé up to serious fighting class. Most of the others have tried it and failed. Some of the ex-champs' protégés have been all too amusing. Jim Corbett had perhaps the funniest protégé known to the science of slap. Somewhere Jim picked up an English heavyweight named Tom Cowley. Jim brought his man along, instructing him carefully in ring craft, and finally matched Tom with Jack Dillon.

Cowley proved an awful bust, despite Jim's master-minding in his corner. It seems that while he was thinking Dillon was just bouncing them off Tom's chin, one after another, until matter finally won over mind and Tom folded.

Even Jack Dempsey took some time and trouble in the development of a heavyweight, not to mention the boys who have been wasting one or two of his declining years trying to advance the cause of one Jack Humbeck, a Belgian. But Kitzmiller's fondness for a dream was that he would live to see the day his son, Young Bob, crowned heavyweight champion.

Jack Johnson gave several aspiring heavyweights the benefit of his cleverness, but somehow the boys never managed to "hook" one of them was George Godfrey. John L. Sullivan, Jess Willard and Gene Tunney had no protégés. When Sullivan quit the ring he left his own great name and let it go at that. After Jess had the bankroll, fighting became distasteful to him. Tunney after leaving the ring decided to take no more interest in it.

Those who remember the way Fernandez pulled into the ring after a fight, the first part of his first fight, the way Fernandez swarmed all over the New Yorker and knocked him stiff, start, cold, wonder just what will happen to Singer when Jack Kid Berg piles into him. If there ever was a relentless slugger, it was Kid Berg. That's just the style that Singer doesn't like.

Fighting Kid Berg is like shaking a stick at a snake of the bees. You'll get home covered with lumps. One advantage a professional golfer has over a professional baseball player is that the golfer can go right on making money out of his sport by giving lessons and selling equipment long after he no longer figures to win in competition; while the baseball player, like Alexander, drops from club to club until he is out altogether, and must take up some other line of business. What brings this to mind is the fading of Alexander and Walter Hagen at almost the same time. Hagen failed even to qualify for the P.G.A. championship, which he has held himself five times. But he's not through with golf as a means of livelihood—not by a long shot.

George Godfrey Scores Knockout

Indianapolis, Aug. 21.—George Godfrey, giant neo-heavyweight of Liverpool, England, knocked out Elijah Lee, Chicago negro, in the second round of a scheduled ten-round bout here last night. Godfrey weighed 244½, Lee 103.

Veteran Parfitt Stars In 5 to 2 Victory Over Elks

Makes Fourth Appearance of Season and Holds Antlered Tribe Scoreless for Six Innings; Sons Hit "Doc" Webster Hard, Falconer Getting Home Run; Elks Fail to Hit in Pinches; Sons Will Meet Vancouver Champions in B.C. Play-offs.

Sons of Canada are amateur baseball champions of Victoria. Yesterday evening at the Royal Athletic Park the boys who are managed by Jack Curtis stepped out and took the Elks into camp for a 5 to 2 victory, giving them their third win and the championship. The clubs played four games, the Sons winning three, while the fourth resulted in a 2-2 deadlock. As a result of their victory the Sons earned the right to oppose the Vancouver League champions in the British Columbia play-offs.

The Sons paraded their veteran, Ray Parfitt, to the mound, but as far as the Elks were concerned he might have been a "Lefty" Grove, as the antlered tribe were only able to snare eight scattered hits. Although Parfitt weakened in the seventh inning and was replaced by Lloyd Gann, but he received credit for the victory. Parfitt, who had only pitched in three games in the regular season, held the Elks scoreless for six innings, and although he got himself to several tight holes, always managed to pull through.

"Doc" Webster opposed Parfitt and remained on the hill until halfway through the sixth inning, when he strained his arm and was replaced by Forbes. The Sons collected eight hits off Webster, including three for extra bases. The Canadians came through with their aces when they needed them.

A FINE VICTORY
The victory of the Sons is all the more notable when it is considered the shaky start they made at the start of the season. They dropped their first three games, but then hit their stride and finished the league in first place. Gaining a bye in the finals the Sons turned back the Elks in the deciding series.

The Canadians during the last month have been playing first class ball, and should be able to give the Vancouver champions a good run. Manager Curtis has been working his team hard, and has kept them in first-class condition all season. The club is fielding well and possesses plenty of hitting power.

By their victory the Sons gain possession of the Rithet Cup, emblematic of the city championship. They also retained the McGavin Cup they won last season for finishing in first place in the league schedule.

The trouble yesterday evening was their inability to hit in the pinches. On two occasions they had chances to score, but fell down through lack of hitting. In the third inning of Webster's last one, the ball sailing over the center field fence. Holman struck out. One run, one hit, no errors.

SECOND INNING
Elks—Bowden sent a fly to Haines. Morgan was given a walk. Forbes filed out to Holman in center field. Morgan stole second, on the first pitched ball to Steele. Steele filed out to Haines. No runs, no hits, no errors.

THIRD INNING
Elks—Robinson laid down a perfect bunt along the third base line, beating out Parfitt's throw by a matter of inches. Barr sacrificed the runner to second. Hilton hit to right field. Robinson holding third and the batter reaching second on the throw in to the plate. Webster was given a walk, filling the bases. Cummins was a strike out victim for the second time. Hilton advanced to second. Hilton hit to right field. Cummins was a strike out victim for the second time. Hilton advanced to second. Hilton hit to right field. Cummins was a strike out victim for the second time.

FOURTH INNING
Elks—Morgan struck out, attempting to bunt on his third strike. Forbes sent up a high fly to Holman. Steele filed out to Haines. No runs, no hits, no errors.

FIFTH INNING
Elks—Robinson walked. Barr attempted to bunt, struck out. Morgan hit the left field fence for a two-base hit. Robinson holding third. Cummins filed out to Hilton. Cummins struck out for the third time. No runs, one hit, no errors.

Pacific Coast Pro Golfers Win Novelty Match From Indians at Banff

Jack Fraser, Vancouver, in Semi-finals of Prince of Wales Tourney

Banff Springs Hotel, Alta., Aug. 21.—The semi-finals of the Prince of Wales Tourney golf event to be played on the Banff Springs golf course on Friday morning will be a Toronto-Winnipeg-Vancouver special. J. D. Fraser of Vancouver will play W. J. "Bill" Thompson of Toronto, and G. K. Lyon of Toronto will battle with Dave Arnott of Winnipeg, the Manitoba amateur champion. The east has two chances to one each for central and western Canada.

The highlight of yesterday morning's play was Bill Thompson's shots from traps that he landed in three or four times. In each case he played out great. In the first hole he landed on the green, and the last four holes he came in a 3, 3, 3, 4. Par for these holes is 4, 4, 4, 4. The game between Dave Arnott and Jack Fraser of Vancouver was a hard fought battle that ended at the sixteenth with Arnott 3 up.

In the second flight semi-finals to be played on Friday morning, J. A. Bryant of Detroit will meet C. Reid of Banff, last year's holder of the Prince of Wales trophy, and A. H. Brown of New Rochelle, N.Y. will meet Leat-Ole Mulla of Toronto.

Winnipeg Handicap
In the men's handicap special feature the prize went to R. Stronach of Banff, who turned in a net 71, his handicap was 26, Lyman Welliver of Red Deer playing with a handicap of 12, turned in a net 73, and the lowest full score for the competitors. H. A. Gourlay of Banff, Harry Smith of Chicago, and J. McCowan of Banff tied for third place with a net 80 each. Gourlay's handicap was 19, Smith's was 21 and McCowan's 15.

Taylor and Black Win
Golf balls played by western professionals Dave Black of Vancouver and Phil Taylor of Victoria, defeated the Redmen Arrows in a novelty contest played yesterday afternoon. The golfers played as usual, but the Indians had to hit a four-inch square of wood on the green. The first, third, fourth and fifth holes were halved. Taylor won the seventh with a par 4, and also the eighth with a birdie 2. Black won the ninth with a par 3, and Walking Caribou, one of the two Indian chiefs, won the seventh with a par 4. Only nine holes were played and at the eighth the pros were 2 up and one to go.

The ninth was played as an exhibition, and a large gallery followed the play and at the close of the match donated \$63 for the Banff General Hospital as an appreciation of their enjoyment of the novel match.

In the special handicap feature Welliver of Red Deer won the prize for the best nine holes by going out in 41, and A. H. Brown of New Rochelle, N.Y. won the hidden hole prize. This was the fourth hole and Robinson did it in a par 5.

Vancouver, Aug. 21.—Firemen defeated V.A.C. 8-6 here yesterday evening in the third of the play-off series for the city championship. The winners, at four out of the seven games, will meet the Victoria champs.

FORBES, BOWDEN, HOLDEN AND STICKNEY TO PLAY FOR SONS IN PLAY-OFF

Manager Jack Curtis of the Sons of Canada announced this morning that he had selected Norman Forbes and Tommy Bowden of the Elks and Leo Holden and Wes Stickney of the Jokers as the additions to his team for the British Columbia amateur baseball play-offs against Vancouver. Through a ruling of the British Columbia Amateur Baseball Association the local champions are allowed to strengthen their team for the provincial series with four players from other clubs.

Largest Crowd of Meet Sees Ponies Gallop At Willows

Three Longshots and Four Favorites Romp Home to Provide Fans With Lots of Entertainment; Extension Surprises in Winning Handicap and Returning \$17.25, Longest Price of the Day; Jockey Kelly, Leading Rider for Second Day; Bad Start in Seventh Race.

With the largest crowd of the meet in attendance yesterday's racing at the Willows produced several fine prices, while enough of the favorites got under the wire to keep the form followers satisfied. In four out of the seven races favorites or second choices got home, while in the remaining three the winners paid off in double figures.

Extension, the Emerald Stock Farm's four-year-old gelding, pulled the surprise of the afternoon by beating out a class of winners to win the B.G. Agricultural Exhibition Handicap over a mile and seventy yards and pay \$17.25, the longest price of the day. Yorkhome was second, and Harry H. Bell third. Rapid and Inca K., the two public choices, failed to get into the money.

The new grandstand was packed to capacity with the large crowd and betting was heavier than usual. Several close finishes were seen, keeping the fans on their toes.

KEELY LEADING RIDER
Jockey Kelly led the riders for the second day bringing home three winners, a second and a third. Pales, Chipping, Perio and Anderson rode the other quads, the second, third, fourth and fifth places were won by Belle Somers third. T. Beattie's King Flame set the pace in this gallop over the five and one-half furlong route, but was tiring at the first turn and was beaten by a head for the show. Skootin and Minnie Meadows, well favored in the betting, were carried wide on the first turn and lost their chances.

FEVIC RIDES WINNER
Jockey Fevic, after a couple of off days, came back to his winning stride by galloping home to victory in the fourth. Salty staged a thrilling duel with Joe G. and came out on top while the latter faltered to allow Jean Naville and Shasta Groney through for second and third places respectively. Salty was the favorite. Both Shasta Groney and Fevic were carried out on the first turn and lost a lot of ground.

L. Torrey's old gelding Sparshot once again did the trick. In the sixth, recording his third straight victory by beating Will Ward to the wire by a head. This time he was a little better favored by the fans and paid only \$6.55. Will Ward, was second and Billy Wals third. Sparshot and Will Ward ran out together from the rest of the field and then made it a tight right to the judge's stand, the winner getting to the front in the last thirty yards.

In the seventh race the horses got away to a bad start when the barrier sprung itself. Missoula Boy was first out of the gate and opened a wide lead which he retained until the wire. Wels Jo, after a poor start, managed to finish second, while Mib McGee was third. Shadow Spark was unable to run through, getting tangled up in the tape at the barrier.

Recovering quickly after a poor start, Wels Jo, after a poor start, managed to finish second, while Mib McGee was third. Shadow Spark was unable to run through, getting tangled up in the tape at the barrier.

Dot Weisel Springs Great Upset By Win Over Sarah Palfrey

California Star Advances to Quarter-finals in National Women's Tennis Championships by Sensational Win Yesterday; Betty Nuthall Continues to Show Fine Form to Defeat Edith Cross, 6-0, 6-3; Three Californians in Eights; Miss Weisel Opposes Miss Nuthall To-day.

Forest Hills, N.Y., Aug. 21.—Eight players stood to-day within striking distance of the national women's tennis singles crown which only one can win.

This group, comprising the sole survivors of an original field of fifty-seven, was made up of three California players, one each from the south, middle west and east and two from foreign countries.

Betty Nuthall, nineteen-year-old English star, still retained her place as perhaps the most logical contender for the title relinquished by Helen Wills Moody. As evidence of the kind of tennis she is playing, the sturdy English girl displayed a snappy 6-0, 6-3 victory over Edith Cross, third ranking woman player in the United States, achieved in the third round yesterday.

Marjorie Morrill, of Dedham, Mass., the only remaining eastern hope, also stood on her record which consisted of successive victories in straight love sets over Clara Zinke, of Cincinnati, and Dorothy Workman, of Los Angeles.

Mrs. L. A. Harper, of San Francisco, possessor of a particularly deceptive southpaw style, likewise had not lost a set against Mrs. J. Dallas Corbiero, of Boston yesterday. She won at 6-0, 6-3.

DOT WEISEL
The other five quarter finalists were Ethel Burkhardt of San Francisco, Dorothy Wiesel of Sacramento, Mary Gref, Kansas City; Penelope Anderson, Richmond, Va., and Baroness George Levi, of Italy, formerly Maude Rosenbaum, of Chicago.

Sarah Palfrey, seventeen-year-old Brookline, Mass., star, was conspicuously absent from this list, having been eliminated by Miss Weisel yesterday after holding a lead of 4-1, in the final set.

The slight and slender Miss Weisel, a newcomer to eastern courts this year, thus qualified to meet Miss Nuthall in the quarter finals. In the same half of the draw Miss Morrill meets Miss Burkhardt, while the lowest seeded line-up is in Mrs. Harper vs. Miss Gref and Baroness Levi vs. Miss Anderson.

Al Simmons To Take Himself a Bride in Fall

Philadelphia, Pa., Aug. 21.—Al Simmons, hard hitting left fielder of the world champion Athletics, and Miss Dorothy Kuhn, of Hightstown, Pa., will be married this fall.

Announcement was made by Miss Kuhn's parents, Mr. and Mrs. John F. Kuhn, at a dinner dance yesterday evening.

Connie Mack, manager of the A's, who attended the dinner-dance, was the first to congratulate his star fielder. It was one of Mack's daughters who introduced Miss Kuhn to him three years ago.

Simmons' home is in Milwaukee.

England's Athletes Dominate Empire Games

Win Lion's Share Of Honors In All Branches of Sport

Have Been to Fore in Track and Field, Swimming, Bowling, Rowing and Boxing and Wrestling; Four of Seven Semi-finals Yesterday Evening in Boxing and Wrestling Won by Englishmen; J. Triffinov, Regina, and Howie Thomas, Montreal, Win Wrestling Titles; Williams Runs To-day.

By W. R. WHEATLEY, Canadian Press Staff Writer
Hamilton, Ont., Aug. 21.—Hamilton awoke this morning to face a crowded programme of sport.

The Empire bowling contingents will resume their trundling at the Roselawn Club in Scenic Gage Park. Crowding all competitors for top honors in all divisions—rinks, doubles and singles—England now is marked as "the team to beat."

GALE HALTS ROWING AT BIG GAMES

Bob Pearce and Joe Wright Will Not Meet in Singles Until To-morrow

Crack Crews Will Compete This Evening; Six Contests on Programme

Bayside Stadium, Hamilton, Ont., Aug. 21.—The Empire singles sculling race, bringing together Bob Pearce of Australia and Joe Wright Jr., Canadian champion, this morning was postponed until to-morrow. International Rowing Association events will be decided to-night.

A young gale blew over Hamilton Bay from the northeast, whipping the water in choppy waves and whitecaps as the rowers made ready to take the water this morning. Officials delayed the start for an hour, looking for a let down in the wind and then declared the early day events off until this evening.

Six international contests, bringing together some of the fastest crews on the continent, will be run off starting at 7 o'clock (P.M.) this evening.

To-morrow evening Pearce, Wright and other singles stars will clash in the feature water event. The singles, Boreford and Bradley of England, and Durnan of Toronto will provide opposition to the Australian and Canadian champions. Pairs, with and without coxswains, also will be on to-morrow's programme.

Ontario Racing Officials Seek Tax Reduction

Toronto, Aug. 21.—A delegation of members and officials of all Ontario Racetrack Associations held a conference with Premier O. Howard Ferguson and members of his cabinet yesterday to urge their claim for reduction of the \$5,000 daily fee imposed by the Ontario Government and the five per cent tax on the pari-mutuels. "We are considering the request of racetrack people," said Premier Ferguson.

BILL TILDEN INTO EIGHTS

Defeats Clifford Sutter in Amazing Exhibition in Newport Tennis

Newport, R.I., Aug. 21.—The top ranking William T. Tilden, greatest showman that United States tennis has produced in its half century of existence, yesterday put on one of the most amazing exhibitions of his colorful court career when he defeated the rising young Clifford Sutter, of New Orleans, intercollegiate and eastern grass court champion. The score was 7-5, 4-6, 6-3, 2-6, 8-6. Tilden thus entered the quarter finals of the current Newport Casino invitation tournament.

George Lott, determined Chicago player who shared Tilden's Davis Cup singles duties, romped into the last eight by defeating Keith Gledhill, Santa Barbara, Cal., 6-1, 6-2, 6-4.

Al Singer Has Signed to Meet Jimmy McLarnin

New York, Aug. 21.—Al Singer, world's lightweight boxing champion, yesterday signed two contracts with Madison Square Garden Corporation, one to meet Jimmy McLarnin of Vancouver, B.C., in a non-title bout at the Yankee Stadium, September 11, and the other to defend his title against Tony Canzoneri in the Garden Arena on November 16. Rymie Galin, manager of Singer, signed for the young Jewish champion for both of the bouts, while McLarnin is expected here from Vancouver, B.C., about the twenty-ninth of the month officially to sign his part of the contract. Frank Bruen, general manager of the Garden, said, however, that McLarnin had agreed to the fight and that they would meet at 142 pounds, with each fighter taking a cut of twenty-five per cent. of the gate receipts.

Hamilton, Ont., Aug. 21.—Within half an hour after he had suffered a severe heart seizure last yesterday afternoon, Colonel Z. A. Taylor of Montreal, prominent in sporting and business circles of that city, was dead. Mr. Taylor was rushed to the General Hospital in an ambulance after hasty medical examination, and died there.

Wilmer Allison Defeats Shields

Newport, R.I., Aug. 21.—Wilmer Allison, Davis Cup doubles player from Texas, to-day led the advance into the semi-final round of the Newport Casino invitation tennis tournament by coming from behind to defeat Frank Y. Shields, of South Orange, N.J., 6-8, 6-4, 6-4.

RAIN HALTS PLAY IN CRICKET TEST MATCH

London, Aug. 21.—Play in the cricket test match between England and Australia could not proceed to-day owing to heavy rain. The match, which is for the "Ashes," Anglo-Australian cricket championship symbol, is being played to a finish and will be resumed when weather conditions permit. As the test stands at present Australia would appear to be in a very strong position. They were 290 runs ahead after the first innings were completed yesterday and England had lost Jack Hobbs' wicket in their second visit to the wickets and had put on only twenty-four runs. Prospects are that England will have to continue on a wet wicket and be at a great disadvantage. Scores in the match are: Australia 695, England 465 and 24 runs for one wicket.

Athletics Appear To Have Cinched Second A.L. Title

With Only Thirty-one Games Left to Play, Philadelphia Enjoys Lead of Eight and a Half Games Over Washington; A's Trounced Detroit Yesterday; Washington Continues Chase by Defeating St. Louis; All Three National League Leaders Are Turned Back.

While the National League pennant race goes merrily on without getting very near to a decision, the Philadelphia fans are about ready to hear the news that the Athletics have clinched the American League title for another year. It may be a good many days before that news arrives, but in the eyes of the A's supporters it is certain come, while a good many of their rivals are conceding defeat.

The Senators continued their chase yesterday by trouncing the St. Louis Browns, 10 to 4, scoring a ten-run burst in the fifth inning, which went a long way toward averaging the defeats suffered in St. Louis.

The other American League clubs had a day of scheduled idleness. The leaders of the National League were joined in grief yesterday as the three succumbed to their rivals on lowest standing, but Brooklyn was the only club which lost ground.

The Robins moved into Cincinnati for a double header with the humble Reds, who had lost seven straight games and twenty out of twenty-five previous games. But much to their surprise, Cincinnati pitching proved superior, Cincinnati pitching proved superior, Cincinnati pitching proved superior.

PHILLIES HUMBLE CUBS
The last place Phillies evidently were destined to win their twice tied game with the champion Chicago Cubs, although it required three days of effort to give them a 10 to 8 decision. The game, which started in an eleven inning tie in the second half of Saturday's double header and failed to come to a decision in a sixteen-inning second clash Tuesday, finally was played off yesterday and Phillies homers were triumphant.

ETHEL HERTLE AND CANADIAN GIRL FAVORED

Much Speculation as to Winner of Women's Ten-mile Swim To-morrow

Cold Water Expected to Favor Ruth Town Corsan; Seattle Girl Is Entry

Toronto, Aug. 21.—Toronto is agog with speculation as to the winner of the women's ten-mile swim for the championship of the world on Friday, opening day of the Canadian National Exhibition.

Ethel Hertle, blonde swimmer from the Bronx, was acclaimed the winner in 1928. A year ago she had other interests, and the day after the swim she married from Gary. For months she has been training in a secluded section of the Adirondacks.

Another favorite is Ruth Town Corsan, formerly of Denver, but now married and living in Toronto. In 1928 she suddenly jumped into fame by placing third, while last year she swam a close second to the victorious Martha Horne, now Mrs. Joe Wright.

The cold water expected for Friday will be in her favor, according to reports.

UNCERTAIN THREAT
Much discussion centres on the eight-year-old Joan Weston of this city. Coming from England last year she discovered only two weeks before the big swim that she was a natural distance swimmer, with remarkable staying powers. With a few days' training and no coach, she covered 1-1/2 miles and this year, she is the most uncertain threat of all entrants.

Another uncertainty is Olive Gatterdam, the Seattle schoolgirl, who almost rubbed Ethel Hertle of the title in 1928, but failed to rank in the money last year.

Forty-four women swimmers are entered.

Enterprise And Yankee Winners In First Tests

Newport, R.I., Aug. 21.—Enterprise defeated Westamoo, and Yankee won from Whirlwind, which withdrew, in the first official test race to determine the defender of the America's cup off here. The race was sailed in Paris. Enterprise's margin was one minute, six seconds.

Tommy Bowden And Jack Bacon Receive Prizes

At yesterday evening's ball game between the Sons of Canada and Elks, Tommy Bowden of the Elks and Jack Bacon of the Sons, were presented with the prizes for the leading batter and leading base dealer for the season, by W. O. Courtney, manager of the Alaska-Washington Airways of B.C. Bowden received a script donated by Two Jack's. The Sons were given the prize donated by the Victoria Sporting Goods. Courtney also drew ticket No. 3,776 for the free round air trip to either Vancouver or Seattle.

Brooklyn 1 10 0
Cincinnati 2 11 0
Batteries—Luque and Lopes; Kolp and Sukeforth.

Pittsburgh, Aug. 21.—Remy Kremer won his seventeenth victory of the season yesterday as the Pittsburgh Pirates continued their winning ways by shutting out the Boston team in the first game of the series, 5-0. It was the second successive shutout victory of the Pirates, Brooklyn being held scoreless yesterday by Sweetland.

Boston 0 5 0
Pittsburgh 5 0 5
Batteries—Seibold and Cronin; Spohrer, Kremer, Brume and Hemeler.

AMERICAN LEAGUE
Philadelphia, Pa., Aug. 21.—Lefty Grove won his eighth straight and twenty-first victory of the season yesterday, pitching the Athletics to a 10-4 triumph over the Detroit Tigers. Grove's four passes and his own wild throw helped the Tigers make the most of their seven hits.

St. Louis, Aug. 21.—The Cardinals kept the New York Giants from making an important gain in the National League pennant race yesterday by coming from behind to win the final game of their series, 5-4.

George Fisher's pinch homer in the fifth gave the Cardinals three runs, while an error and Fitzsimmons' wildness accounted for the winning runs in the seventh.

New York 4 8 2
St. Louis 5 7 2
Batteries—Fitzsimmons and Hogan; Grabowski, Rehn, Bell and Mancuso, Wilson.

Chicago, Aug. 21.—Five home runs gave the Philadelphia 10 to 8 victory over the Cubs yesterday in the play-off of their twice tied game. Davis got two homers and Klein, O'Doul and Hurst, one each. The Cubs out-hit Philadelphia 19-18.

Philadelphia 10 13 1
Chicago 8 17 1
Batteries—Senge and Davis; Sheatz, Osborn, Nelson and Z. Taylor.

Australian Polo Team Bound Home Will Visit Here

Ashton Brothers Selling Ponies at Meadowbrook and Will Sail on Aorangi
Hon. James Ashton, Father of Sporting Quartette, Left By Niagara

When the Aorangi sails for Australia next month the passenger list will include the Ashton Brothers, noted Australian quartette of polo players, who recently made such a remarkable showing at Hurlingham and are now showing their wares at Meadowbrook.

Hon. James Ashton, member of the Legislative Council for New South Wales, and proud father of the four dashing Australian polo players, was in the city a few hours yesterday evening en route to Sydney by the liner Niagara.

He made the trip, which at his conclusion will have taken him completely around the world, in order to see his sons, James, Robert, Geoffrey and Philip perform at Hurlingham, the Empire's hub of polo.

They are now playing a series of exhibition games at Meadowbrook, the centre of polo in the United States.

DID WELL AT HURLINGHAM
Mr. Ashton recounted the performances of his boys while they were in London. They won the Whitney Cup, the Roehampton Open Cup and the Indian Empire Challenge Shield. They were matched against the members of the famous Roark family, consisting of the father and three sons, winning by 8-4.

The Ashton brothers were beaten by the Hurricanes in the match for the champion cup at Hurlingham by the close score of 8-7, the Hurricanes team being composed of Capt. Pat Roark and Gerald Baiding, members of the British polo team competing in the United States. Wing-Commander Wise and Laddie Sanford.

When the Ashton brothers set out for Australia for England they booked passage by the liner, Port Huon, and took with them a string of twenty-five ponies.

During the long voyage the ponies were daily exercised in a sand paddock built on the after deck of the ship.

They arrived in England early in March and trained for two months in Gloucestershire. James, the eldest, is thirty years of age and Philip, the youngest is twenty-four years.

PONIES FOR SALE
The Ashton brothers are not taking the string of ponies back with them to Australia. Mr. Ashton said his boys were advertising the ponies for sale at Meadowbrook on August 30.

Mr. Ashton is a well known Australian grazier. He is a director of the Mutual Life and Citizens' Life Insurance Company Limited, the New South Wales Wool and Produce Co-operative Company Limited, the Union Trustee Company Limited, the Scottish Union and National Insurance Company Limited and the Corcoran Pastoral Company Limited.

From 1894 to 1897 he represented the constituency of Hay in the Legislative Assembly of New South Wales and from 1897 to 1907 was representative for Goulburn.

He was Minister of Lands in the State Government from 1904 to 1907 and from 1907 to 1909 held a portfolio in the State Government, also acting as premier. He has been a member of the N.S.W. Legislative Council since 1907. His home is now at Sydney.

George Young Files His Entry For Big Swim

Toronto, Aug. 21.—George Young has filed his entry for the Canadian National Exhibition, swimming marathon. The Toronto youth who sprang to fame in 1927 with his Catalina Channel swim states in his entry form—that Shier-Mendelson, local swimmer, is his manager and coach.

There are 260 men swimmers entered in the event of next Wednesday. Women winners in Friday's feminine water derby will be entitled to enter in the men's event.

M. PHILLIPSEN WINS J.B.A.A. TENNIS TITLE

Scores Straight Set Win Over Mrs. W. Erickson in Finals of Women's Singles

Miss Mildred Phillippsen added the women's singles tennis championship of the J.B.A.A. to her Equinault title yesterday evening when she defeated Mrs. W. Erickson, 6-4, 9-6, in the final. The match was hard fought throughout, and it took more than an hour and a half for the new champion to vanquish her more experienced opponent.

Miss Biddy Boyce and Cliff Margison captured the mixed doubles crown by scoring a straight set win over Mrs. Thomas and Bill Erickson, 6-3, 6-4. The winners showed excellent teamwork and deserved their win.

Ivan Temple and Ernie Stock won their way into the finals of the men's doubles by pouncing out a decisive win over Allan and Thomas, 6-2, 6-2.

Results follow:
Women's Singles
Mildred Phillippsen beat Mrs. W. Erickson, 6-4, 9-6.
Mixed Doubles
Biddy Boyce and C. Margison beat Mrs. Thomas and Bill Erickson, 6-3, 6-4.

RUMOR SAYS KING CAROL TO SEEK A BRIDE

Member of Bourbon-Orleans House Mentioned as Possible Queen

Vienna, Aug. 21.—A diplomat who arrived yesterday from Bucharest partially confirmed reports that King Carol would abandon efforts to dissolve the divorce from Queen Helen and instead would seek another bride. He said the King probably would seek marriage with a member of the Bourbon-Orleans house of France, whom he met in Paris while he was in exile before taking the Roumanian throne.

A local news agency, meanwhile, denied all such rumors.

A report from Bucharest said Queen Marie had left for Sibiu, the summer capital, in an effort to bring about a reconciliation of the King and Queen, but added that the attempt probably would prove futile.

The stand off between the former exile who now is a king and the queen who divorced him while he was gone has complicated the Roumanian political situation considerably. Julie Manlu, the Premier, has announced that he will not preside at the coronation ceremonies unless Helen is crowned beside Carol; hence political circles consider that his attitude may produce a change in the government.

Some predict that in such case Nicholas Titulescu, Roumanian Ambassador to Great Britain, might undertake to form a coalition government. Titulescu, however, has hitherto demanded reconciliation of the King and Queen before coronation.

Many Visitors Enjoy Gardens Of "Mountjoy"

Carrying out a delightful custom inaugurated by them several years ago, Mr. and Mrs. F. B. Pemberton have been throwing open their beautiful grounds at "Mountjoy," Fort Bay Road, to many visitors on Saturday and Wednesday afternoons, and those fortunate enough to be invited have gladly availed themselves of the privilege of wandering through this lovely demesne.

The gardens are a happy combination of the wild and the cultivated, one section being left almost entirely as nature willed, where, in the early spring, wild lilacs rear their heads in profusion in the lush grass at the foot of the fine old oaks. The remainder of the grounds testify to the handiwork of man in the artistic grouping of color in the delightful arrangement of flower-beds, perennials and arches hung with masses of brilliant bloom, a pond reflecting the lovely colors of water lilies and the cool green of their leaves in its surface, terraced lawns and attractive shrubberies.

Stained Fingers If your fingers are stained from nicotine, use household ammonia and scrub in equal parts. Scrub with a little brush.

Collar Hats New hats cut their rear to suit the high fur collars that many winter coats and suits affect.

LOCAL ARTISTS REPRESENTED IN FINE EXHIBIT

Art Section at Willows Fair Notable For Absence of Usual Mediocrity

Although the presence of a collection of paintings loaned by the Canadian National Gallery undoubtedly adds an added attraction to the art exhibit at the Willows fair, the high standard of the work of Vancouver Island artists is a matter for much commendation, and adds considerably to the interest of this section of the Provincial Fair. The collection loaned from Ottawa embraces about twenty, principally oils, each being the work of a well-known artist. In the section devoted to the work of local artists there is a pleasing variety of subject and a notable absence from the mediocrity which has characterized some of the exhibits of past years.

"MOUNT TEMPLE" POPULAR

Mrs. L. A. Loveland is represented by a colorful study of the old red Parliament building on Superior Street, with the new building rising in the background, framed in the blossom of the hawthorn; also by a flower study, "Hollyhocks." Mrs. I. D. Unthoff's work is always excellent, full of atmosphere, of fine technique and, withal, imaginative. Her interpretation of "Mount Temple," with its play of light and shadow in the tree-lined valley, and the shadows on the distant peak, is in interesting contrast to that of W. F. Weston's arresting and, less orthodox treatment of the same mountain, a striking impression of snow and ice and austere rocks and infinite remoteness. The same mountain also inspired a water-color by T. Fripp, a lovely thing, full of meticulous attention to detail and a finished style.

Hounds in full cry, with the scarlet-clad huntmen following, lend life and color to the oil-painting by N. Drummond, entitled, "A Hunting Morning." By the same artist is "Indian Scouts," a fine piece of work in the same medium. "Lake Crescent" and "Qualicum Beach" are two of the more local scenes cleverly depicted by G. Woodward, while "Mosque" at Tunis is a happy bit of color. Her water color, "Waves," shows her aptitude for marine studies, the water being full of movement and depth.

FAITHFUL EXHIBITORS

Col. Pawkes has sent in several of his charming water-color studies of the islands, together with an interesting bit of the interior of Christ Church Cathedral, with the light from the stained glass windows illuminating the pillars. J. Bamford, another faithful exhibitor, is represented by several characteristic water-colors, notably "Shawigan Lake" and "Glimpse of Victoria." Henry Hood with "Mouth of False Creek" and "Landscape Hours," a study of girls on a beach, and D. S. Cameron, well-known as a water-color exhibitor, with "The Malahat," among others, of good composition and texture.

J. Crease, Dora Donough, Will Macdonald, T. B. Goss, who show a collection of local sketches, Rose Willis, P. M. Young and E. Bainbridge Smith are other well-known members of the Vancouver Island Arts and Crafts Society represented in the collection, and Melitta Aitken has entered a number of charming flower studies. Olive Buller Allen is showing several delightful specimens of her black and white illustrations, full of fantasy.

SPLENDID POTTERY EXHIBIT

The tremendous strides made in the pottery industry on Vancouver Island is exemplified in the splendid exhibit, which is noteworthy for its general excellence of design and brilliancy of coloring. Mrs. Grook, who shows a large collection of original design, including a clever adaptation of an Indian "Toby jug," and several bowls bearing most realistic frogs, Mrs. M. Grube, Maureen Grube, a young artist represented by a charming little wall plaque of pottery, Mrs. Roberts, Mrs. Hudson, Mrs. C. W. Martin, Emily Carr, with characteristic Indian designs, Eryl and Cecie Edwards and Mrs. C. W. Sanders, with several clever little clay models, are among the exhibitors in this section. Mrs. Martin is showing some pewter pins and rings of unusual design.

BISHOP RESIGNS

Winnipeg, Aug. 21.—St. Rev. Edwin F. Robins, bishop of Athabasca, who had spent many years in the far north, has resigned. His resignation was announced yesterday by Archbishop Matheson, Primate of the Church of England in Canada. Dr. Robins, who is at present in England, has accepted an invitation to be assistant to the bishop of Norwich and will assume his new office November 30.

THE MEMBERS OF THE HAPPY MEMBERS

and their parents held a very successful basket picnic at Pinelawn Plaza on Sunday, August 17. Games of horse-shoe pitching, baseball and swimming were enjoyed by all. At the conclusion of the picnic the members met at the home of Mr. and Mrs. Phillips, Stanley Avenue, where light refreshments and a sing-song were enjoyed. The following were present: Mr. and Mrs. G. Slater, Mr. and Mrs. W. Phillips, Mr. and Mrs. E. Day, Mrs. A. Phipps, Mrs. G. Woollett, Mrs. W. Freethy, Mrs. J. Aylin, Mr. Weare, H.M.A. Despatch, the Misses Hazel Aylin, Cecile McKay, Kitty Freethy, Millicent Higgins, Mae Phillips, Margaret Reif, Evelyn Day, Lepel and Patsy Phillips; the Messrs. Jack Aylin, Edward Aylin, Ralph Freethy, John Slater, Archie Woollett, Edward Slater, William Monahan, Goyal Turnbull, Norman Phillips and Walter Phillips.

Gen. Ludendorff Seeking Divorce From His Wife

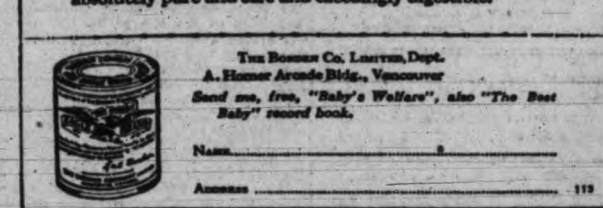

Berlin, Aug. 21.—The Jewish Telegraphic Agency to-day said General Erich Ludendorff had filed suit for divorce from his wife. The agency said Ludendorff made his real wife while he was in Germany, and that he had been foisted upon him a theory that Jews and Free Masons were plotting against the lives of noted Germans. Ludendorff, now is the editor of the Ludendorff organ, Wochenachau, which has been vigorously Anti-Semitic in tone.

Gen. Ludendorff was Quartermaster-General of the German army in the Great War and second only to Field Marshal von Hindenburg in authority.

It was written for the use of every young mother by a thoroughly experienced physician. It is not technical, nor does it take the place of your own doctor's advice. It is just a simple practical treatise in every day language. You cannot afford to be without it. Write for your copy to-day and save yourself endless worry.

Baby's food is of first consideration. Nurse him if possible. If you cannot, use Eagle Brand, endorsed by thousands of mothers, recommended by thousands of doctors. It is absolutely pure and safe and exceedingly digestible.

CAN YOU READ?

Can you read without halting and stumbling over the words and without a consciousness of strain? If you find that either or both of these is your experience, why labor on? Have your eyes examined, and a suitable correction made. We can remove your difficulty by vision training or glasses.

Hamilton, Ont., Aug. 21.—It was officially announced yesterday evening that Bob Pearce, the burly Australian sculler, who won the world's championship at the Olympic games in Holland in 1928, will become a resident of this city and that his father, a former champion, who is responsible for his son's development into a world beater, will also make Hamilton his home and coach the crews and individual members of the Leander Boat Club.

STOCKINGLESS FAD DEPLORED

U.S. Catholic Women's Union Condemn Unchristian Practice

Baltimore, Aug. 21.—The stockingless fad for young girls was deplored as an "Unchristian practice" in a resolution on dress reform passed here today by the National Catholic Women's Union.

Declaring the practice of "dressing little girls in a manner which is directly contrary to the rules of Christian modesty," was becoming quite universal, the resolution added that not only are stockings discarded but the lower limbs are left completely uncovered.

"The necessary result of this un-Christian practice," the resolution continued, "is the complete loss of the sense of modesty in these young girls growing up, who in after years will not understand what this virtue means to them."

Laying the blame on the mothers, the resolution recommended dress reform begin at the time the children graduate from the elementary course in school.

GENUINE CASTILE SOAP HAS OLIVE OIL AS A BASE

By WILLIAM H. WALDWIN
Castile soap is technically a soap in which the fatty acid is derived exclusively from olive oil. This is an excellent base for soap. Certain manufacturers therefore describe as "Castile" soaps which are really made from inferior products. The United States Federal Trade Commission is trying to stop this misbranding. Certain other manufacturers combine Castile with some other word in describing their products—for example, "cocoa-castile" is sometimes used. The only type of Castile soap in which the shopkeeper should be interested is one wherein olive oil provides all the fatty acid content. The wise shopper will study the labels when she is buying Castile soap.

NURSES DISCUSS MANY SUBJECTS

Interesting Papers on Problems Read at Hospital Convention Yesterday

Vancouver, Aug. 21.—Questions of particular interest to nurses were discussed yesterday morning at the joint meeting of the British Columbia Hospital Association and the Northwest Hospital Association. A number of excellent papers were presented. They were provocative of more discussion than any since the convention opened. Miss J. Harrison of Prince Rupert Hospital occupied the chair, and the following papers were read: "The Changing Nursing Era," Carolyn E. Davis, R.N., superintendent of Everett General Hospital; "Should the Small Hospital Conduct a Training School?" Clara E. Jackson, R.N., superintendent of King's Daughters' Hospital, Duncan; "Affiliation of the Small School of Nurses with the Larger School," Helen Randall, R.N., of Vancouver, registrar of British Columbia Nurses' Association; "Nursing Education," Sister John Gabriel, educational director for schools of nursing, Sister of Charity of Providence in the Northwest; "University Courses for Nurses," Mabel E. Gray, R.N., Assistant Professor of Nursing, University of British Columbia, and "Dietetic Courses for Nurses," discussion opened by Grace M. Fairley, R.N., superintendent of nurses, Vancouver General Hospital.

Miss Davis, in her paper on "The Changing Nursing Era," dealt broadly with nurses' problems, paying the way for the papers that followed. She drew attention to the fact that the supply of nurses more than equals the demand with a survival of the fittest applying to her contention that schools of nursing are becoming educational institutions. Miss Jackson's paper on the subject "Should Small Hospitals Conduct Nursing Schools?" was exhaustive and drew a number of conflicting opinions.

WHAT THE SMALL BOY AND GIRL WILL WEAR TO SCHOOL

For those early autumn days when the young miss and master embark on their school career, their wardrobes offer few problems. The washable clothes which have carried them through the summer will suffice for the first month or so. The usual costume consists of washable suits for Johnny in quantities to keep him clean, and washable dresses for Sally with washable bloomers to match. A heavy sweater for cooler days, the raincoat, hat, rubbers and umbrella for those inevitable rainy mornings will be all that is necessary up to November.

From then on throughout the winter the young miss' clothes go amazingly adult. Even if she is only five there are washable jersey outfits that in proper sizes would be appropriate for her mother. They consist of plaid jersey skirts and matching cardigan jacket buttoning right down front. For wear with these are washable blouses, as simple or as elaborate as one desires, or, for colder days, a white jersey slip over sweater of diminutive size. These dresses are the nicest of choices for those cold mornings when it seems nothing short of cruel to send a child out in a cotton dress.

MODERN CHANGES
The small boy for the colder days wears flannel shorts of dark colors and washable blouses or shirts. On cold days he too wears a sweater over his shirt, and both boys and girls wear socks or long ribbed little thread hose of dark colors and low shoes. On inclement fall days they don rubbers

"I warn against soaps not made exclusively of olive and palm oils"

Every skin needs the deep cleansing which only the pure vegetable oil of palm and olives can give. These cosmetic oils have been known for generations as nature's greatest beautifiers.

says
Mme. BERTHA JACOBSON
"The noted London beauty specialist"
"When women come to me for advice, I always impress on them the need for soap and water, as cleanliness is the first step to beauty. By using Palmolive you can always be sure that your skin will retain its natural freshness of beauty."

Bertha Jacobson
MAISON DE BEAUTE POMPADOUR, LTD.,
11/12 DORSET STREET, LONDON, ENG.

Massage a smooth lather of Palmolive Soap and warm water gently into the skin, letting the lather get deep into every pore. Then rinse away soap, dirt, make-up with warm water, finally cold. And you'll find that your skin is wonderfully soft, smooth—protected against the vagaries of weather conditions.

Why 23,720 Beauty Specialists prefer Palmolive

Since Cleopatra's days, palm and olive oils have been famous as beautifiers. Nothing has ever supplanted them. Palmolive is a pure vegetable oil soap. Its color, its odor, its very feeling is that of nature's great cosmetic oils. It cleanses safely, beautifies easily.

You can follow such expert advice without doubt. You will like Palmolive—and find soon that you use it also for the bath. It costs no more than ordinary soap. Begin to use it right away.

All over the world, skin specialists endorse the use of Palmolive Soap. Have agreed that this home beauty treatment will do much to create a lovely complexion.

Joan surprised her Mother-in-Law

Bob and Joan had been married a month and his Mother was coming for lunch today. "I must show her that even though I worked in an office I can make a nice meal," thought Joan.

Then she cut up the remains of Sunday's roast, and heated it with the contents of 1 lb. of Clark's Cooked Spaghetti.

A little challenge: try some of Clark's Cooked Spaghetti, then try any other brand of spaghetti you like. If Clark's doesn't taste as good as any of the other brands (we are sure it will taste better) ... ask your grocer for your money back. Isn't that fair enough?
... it MUST be good!

Pile Sufferers

End Your Misery Without Surgery or Cutting

External treatments cannot permanently end Piles. Nor does cutting remove the cause.

The cause is internal—bad circulation of the blood in the lower bowel. The veins are flabby—the bowel weak—the parts almost dead. To quickly and safely rid yourself of piles an internal medicine must be used to heal and strengthen the affected parts. Dr. J. S. Leonard, a specialist, after years of study discovered a real internal Pile remedy. He named his prescription HEM-ROID, and prescribed it for 1,000 patients, with the marvelous record of success in 980 cases, and then decided every Pile sufferer should be able to get HEM-ROID from their own druggist.

Don't waste time on external remedies or think of the pain and expense of an operation. Get a package of HEM-ROID from McFarlane and Vancouver Drug Stores with their guarantee of money-back if it does not end all Pile misery. (Adv.)

When Pain Comes
Two hours after eating

What many people call indigestion
very often means excess acid in the
stomach. The stomach nerves have
been overstimulated, and food sour-
ness is the result. The best remedy
is an alkali, which neutralizes the
excess acid instantly. And the best
alkali known to medical science is
Phillips' Milk of Magnesia. It has
remained the standard with physicians
for 50 years since its invention.

One spoonful of this harmless, taste-
less alkali in water will neutralize in-
stantly many times as much acid, and
the symptoms disappear at once. You
will never use crude methods when
once you learn the efficiency of this.
Go get a small bottle to try.

Be sure to get the genuine Phillips
Milk of Magnesia prescribed by physi-
cians for 50 years in correcting excess
acids. Each bottle contains full direc-
tions—any drug store. (Adv.)

NEWS IN BRIEF

A new arrival at the Lansdowne fly-
ing field is a low-wing monoplane.
This ship is powered with a 65 horse-
power LeBlond motor. The ship is the
first privately owned in Victoria.

Dave Wright, who pleaded guilty in
City Police Court this morning to a
charge of driving to the common
danger on Quadra Street, was fined
\$25.00.

More rigid enforcement of the Egg
Marks Act to prevent imports in the
B.C. egg market of dried egg yolks
from China and other foreign imports
is planned by the Department of Agri-
culture.

Mrs. Lall, of Vancouver, will aid
the Society for Psychic Research in
Temple Hall, North Park Street, this
evening at 8 o'clock. Questions will
be answered and everybody will get
a reading.

Rev. W. Pascoe Goad, LL. D., F.R.
G.S., P.R.E.S., of London, Eng., was
the speaker at a meeting of the Vic-
toria branch of the British-Israel Fe-
deration of Canada, in the Amphion
Hall last night. W. H. Blackaller, pre-
sident, was in the chair. The Pres-
ent speaker and How to Meet It" was
Mr. Goad's theme.

The remains of Mrs. Edith Mary
Shrapnel were laid to rest in the
family plot in Ross Bay Cemetery yester-
day afternoon, the funeral taking
place from Hayward's B.C. Funeral
Chapel at 1:45 o'clock, proceeding to
Christ Church Cathedral. Services were
conducted at 3 o'clock by Rev. E. W.
P. Carter in the presence of many sym-
pathizing friends. The hymns sung
were "Onward, Christian Soldiers" and
"Abide With Me." A profusion of
beautiful floral designs were received
and placed on the casket and hearse.

The death occurred yesterday after-
noon at the Jubilee Hospital of Mrs.
Sarah Campbell, aged eighty-two
years. Mrs. Campbell was born in
Glasgow, Scotland, and resided here for
the last twenty-five years, lately with
her son, Charles Campbell, 1027 Burton
Avenue. She is survived by two sons,
Charles Campbell and J. Campbell of
San Francisco, and one daughter, Mrs.
D. W. Goad, 1045 Queens Avenue.
The remains are resting at Seely's
Funeral Parlors, and announcement of
the funeral arrangements will be made
later.

Funeral services will be held on Sat-
urday afternoon, at 3:30 o'clock, at the
B.C. Funeral Chapel for the late Ed-
ward Henry, who passed away at
Nanaimo Hospital on Tuesday, after
a lingering illness. Mr. Henry was born
at Clover Point on October 1, 1863, the
eldest son of the late Mr. and Mrs.
Henry, who arrived here in 1858
from England. He is survived by two
brothers, W. G. Henry and J. T. Henry,
and two sisters, Mrs. E. W. Gardiner
and Mrs. W. H. Cox, all of Victoria.
B.C. Mr. Henry was a member of Court
Northern Light, A.O.F., and was one of
the first founders of Post No. 1 Native
Sons of B.C. He was for a number of
years an employee of the C.P.R.
Funeral services will be at Ross Bay
Cemetery.

The funeral of the late Charles Wil-
liam King will take place on Friday
afternoon at 2 o'clock from the res-
idence, 718 Esquimalt Road. Interment
will be in Royal Oak Burial Park.

Mrs. Edith Emily Paulin, widow of
the late George Henry Paulin, passed
away in this city on August 20, aged
fifty-six years. Born in Liverpool, Eng.,
Mrs. Paulin was a resident of this Prov-
ince for forty years. She resided in
Victoria for a number of years before
coming to Vancouver to live with her
son, Charles W. Paulin, of 928 Twenty-
second Avenue. The late Mrs. Paulin
is survived by her son in Van-
couver and one son, George, in Vic-
toria. The funeral will take place from
the B.C. Funeral Parlors on Friday at
3 o'clock. There will be a service at
Christ Church Cathedral at which Rev.
F. A. Ramsay will officiate at 3:15
o'clock. Interment will be in the Ross
Bay Cemetery.

Organ Recital
Held Yesterday
At Cathedral

The first of a series of week-day pub-
lic organ recitals drew a large congre-
gation to Christ Church Cathedral yester-
day evening, when Stanley F. Jones,
A.R.C.O., Cathedral organist, gave
a fine programme, assisted by Llewellyn
Jones, tenor. Handel, Bach, Cesar
Franck, C. V. Stanford were among the
composers represented. And the best
programme of organ numbers, and Mr.
Jones sang a Mendelssohn and Stan-
ford number.

LIFE INSURANCE
CLUB STARTS
BUSINESS HERE

A. MacKenzie, Superintendent
of Agencies, Presides at
Manufacturers' Convention

Mayor Ansonb Extends Wel-
come to Delegates on Be-
half of City

With Alexander MacKenzie, man-
ager of agencies presiding, the
business sessions of the One Hun-
dred Thousand Club of the Manu-
facturers' Life Insurance Company,
embracing the western representa-
tives of the organization, opened
in the Princess Louise private salon
at the Empress Hotel this morn-
ing.

Mr. MacKenzie spoke on conditions
in the western Canadian provinces
and the western states and enlarged
upon the remarkable expansion of the
company, incorporated in 1887.

Mayor Ansonb attended the open-
ing of the convention proceedings and
extended a cordial welcome to the
delegates.

The introduction of new members
was made by Mr. MacKenzie.

The business sessions of the con-
ference are listed in the forenoon, while
the afternoon and evening are given
over to the enjoyment and relaxation
of the delegates and their relatives
and friends.

DELEGATES RELAX

This afternoon, stages carried mem-
bers of the convention party on a drive
over the Malahat, and to Butchart's
Gardens at Benvenuto.

A considerable number of the de-
legates played the best golf of their
insurance career over the course of
the Colwood Golf and Country Club.

James E. Sherratt, manager of the
Vancouver Island agency, is respon-
sible for the reception arrangements.

GOVERNMENT TO
ASSIST GROWTH
OF SEED FIRM

Loan of \$60,000 For Develop-
ment of Island Industry Is
Approved

Expansion of the operations of
the James Canadian Seed Ltd. is to
be assisted by the Government
Loan of \$60,000 to the company for
the purpose of acquiring 300 acres
in the Cowichan Valley and for
working the land, was approved by
order-in-council this week, follow-
ing a recommendation to the Gov-
ernment by Hon. W. C. Sheffy,
Minister of Finance.

The firm of James Canadian Seeds,
consisting of Arthur Macdonald, Pe-
ter G. Harry, and Charles B. B.,
is well known on Salt Spring Island where
it has successfully developed the ped-
igreed seed growing industry, marketing
the produce under the name of the
Canadian Seed Company. The firm
is applying for the loan, James Bros.
pointed out they had reached the limit
of development on the island and wish
to extend their operations further
afield. The application was investi-
gated by Col. D. B. Murray, industrial
commissioner, and by Mr. Shelly him-
self.

GOOD INDUSTRY

This development is seen by govern-
ment officials as a pronounced step in
the building up of one of the Province's
most flourishing industries. The for-
tunate valleys of Saanich, Comox and
the Fraser are now producing what has
been an unlimited market awaits
the growers. The value of seed im-
ports into Canada yearly is placed at
\$1,000,000.

B.C. seed producers receive from \$1
to \$1.25 for their products at the pres-
ent time, and the retail price is from
85c to \$2.50 a pound. With a lucrative
market, a fine future is seen for the
industry.

In securing the loan James Bros. un-
derstand to market not only their own
seeds but those of other growers
where pure grade foundation stocks are
used.

Spark Arrester To
Be Tested By E. & N.

J. M. Cameron Communicates
With Brown-Cyclone Interest
in Seattle To-day

New Device, Never Used in
Canada Before, May Stimu-
late Use of Coal

Acting on the resolution passed
at yesterday's coal conference in
the legislative buildings, J. M.
Cameron, superintendent of the Esqui-
malt and Nanaimo Railway, to-
day communicated with the patent
owners of the Brown-Cyclone spark
arrester in Seattle to arrange for
an early test of the device on the
Island road.

If it is found that the arrester is
able to eliminate the fire menace from
the use of coal by the E. & N. locomo-
tives it is possible they will again use
Island bituminous coal after over ten
years of oil burning. A reply from the
Brown-Cyclone interests is expected
within three days, and the test will
then follow if satisfactory arrange-
ments can be made.

The resolution requesting the rail-
way to make this trial was the first
concrete step taken at yesterday's con-
ference to increase the consumption of
coal in the Province.

Chamber of Commerce Re-
ceives Review of Joint
Inquiry

A review of many interesting
facts revealed by a co-operative in-
vestigation of the lumber trade in
Canada and the United States by the
forest products branch of the
United States and the forest service
of the United States Department
of Agriculture has been received by
the Victoria Chamber of Commerce
and contains much information of
particular interest to British Colum-
bians.

The survey, which was based on 1928
figures, reveals that British Columbia
supplies a larger proportion of the
United States import of Canadian lum-
ber than does any other province, the
chief elements in the import being
Douglas fir and western cedar, spruce
and hemlock.

The United States took 71 per cent
of Canada's export of lumber; the
United Kingdom and Japan each took
approximately 10 per cent, while small
proportions went to Australia,
South Africa and the West Indies.

The principal exporting province, Brit-
ish Columbia supplied practically all
the exports destined to Japan, China,
Australia and other Pacific countries
as well as supplying the bulk of the
British Columbia supply to the United
States.

British Columbia supplied 48 per
cent of Canadian lumber shipped to
the United States, Quebec 25 per cent,
Ontario 15 per cent, New Brunswick 7
per cent, Nova Scotia 4 per cent and
the prairie provinces 3 per cent. Brit-
ish Columbia shipped lumber to almost
every state of the union, supplying the
bulk of the exports to each region.

CROWD APPLAUDS
SPLENDID HORSE
SHOW PROGRAMME

Notable Equestrian Events in
Horse Show Building Yes-
terday Evening

Lieut.-Governor Bruce Will
Attend Five-day Convention
in San Francisco

A fine exhibition of eque-
strianism was presented yesterday
evening at the Horshoe Building
at the Willows. The building was
filled and the spectators freely ap-
plauded the performance.

Special added attractions will feature
this evening's programme at 8 o'clock,
which will be attended by Lieuten-
ant Governor Bruce. Many entries have
been received and keen competition is
expected. Prominent among the visi-
tors to take part will be Miss Norma
Drysdale of Vancouver.

The programmes have been arranged
under the direction of a committee
headed by J. C. Scooby, Major K. B.
Spurgin, Mrs. E. Garrett and Mrs. Du-
gald Gillespie.

The first event yesterday evening, the
high school class of five entrants, was
won easily by D. B. Carley, riding a
beautiful chestnut, Beggar Boy. Mrs.
Carley was second on Carry On, and
Mrs. McAnally with Peg o' My Heart,
a fine grey mare, took third place.

FINE JUMPING

The next class was the heavy hunters
in which competitors had to jump four
burdens. Mrs. Dugald Gillespie, riding
Nevada, a handsome black gelding, an-
nounced premier honors, with Major
Spurgin on Surprise and Nicholas Van
der Vliet, with Paddy, second and third
respectively.

In the jumping in pairs, Mrs. Gilles-
pie and Van der Vliet gained the
honors with a wonderful exhibition.
Second place went to Miss E. Garrett
on Happy Girl, and Major Spurgin on
Surprise. Mrs. McAnally on Peg o' My
Heart, and Mrs. Carley on Bella, were
third.

The park hacks was won by Mrs.
Carley on Beggar Boy, easily the most
beautiful horse in the show. Second
place was awarded to Miss Muriel Price,
of Duncan, riding Jerry, and third place
went to D. B. Carley on Carry On.

In the jumping class, honors went
to Mrs. Gillespie with Nevada, with
Mrs. McAnally and Major Spurgin in
second and third.

One of the most interesting events
was the exhibition of polo ponies, won
by Norman Drysdale of Vancouver, with
Alice. The second and third places
went to Mr. Belton and Major Spurgin.
The last event was the Carthagen
cane.

The first place was awarded to Major
Spurgin with Surprise. The second

COL. WINSBY
PRINCIPAL AT
COBBLE HILL

Special to The Times
Cobble Hill, Aug. 21.—Col. W. N.
Winsby has been appointed prin-
cipal of the Cobble Hill Superior
School.

Col. Winsby was interviewed
yesterday by O. E. Bennett, chair-
man, and others members of the
school board, after which he an-
nounced his acceptance of the
principalship.

Pending the decision of the Cobble
Hill school board regarding construc-
tion plans in connection with the pro-
posed new addition for the accommo-
dation of the pupils, the higher grades
will be taught in the basement of the
existing one-room school building,
which will be temporarily converted
into a classroom.

Whether a new one-room frame
school will be built, or whether a room
will be added to the present structure
will shortly be decided by the school
board.

TO-DAY'S GRAIN MARKETS

(By Branson, Brown and Co. Ltd.)
 Winnipeg, Aug. 21.—Wheat: After opening lower, based on the weakness in Liverpool, local wheat prices advanced until they were 1/2 cent to 1/4 cent over the close yesterday. However, there was little of feature going on beyond the fact that offerings were extremely light, sentiment a little more friendly than it has been and in the later trade Chicago, which had displayed little or no pop from the weakness in Liverpool, followed in sympathy, declining about 2 cents from the earlier low marks, but recovered part of this loss later.
 Trade was largely local with considerable spreading between the different months, but mostly selling October against purchases of December. Export sales Wednesday afternoon and this morning were placed at 625,000 bushels Manitoba and mostly worked by the pool, very little being reflected in the local market.
 Liverpool closed 1/4 lower to 1/2 higher when due 5-8 to 1 1/4 higher, and Russia was reported offering wheat freely at the equivalent of 2 1/4 cents under United States prices.
 There were rains or showers over parts of the corn belt, and conditions would seem to be much improved from a week ago. In the Canadian west the weather was unsettled, with showers or rains fairly general from western half of Manitoba to the mountains. There was a little better tone to the cash market with local shippers 1/2 to 1/4 better on certain grades. Offerings continued light and the volume of business done was light, being confined mostly to odd lots.
 Black Sea shipments this week totaled 2,576,000 bushels wheat, of which Russia shipped 2,104,000 bushels. Good rains have been received in parts of Australia. European wheat reported as mostly favorable. Winnipeg futures closed 1/4 to 1/2 lower.

Coarse grains—These markets were all much stronger to-day and were more or less following the lead of American corn and coarse grains. The offerings in the local pit were very light, but at the same time the demand from conservative channels was very ordinary and in the cash market the demand was for only the odd ears of oats and barley from eastern Canada. Oats closed 1/4 to 1/2 cent higher. Barley 1/4 to 1 1/2 higher and rye 1/4 to 1 1/2 higher.

Flax—No feature, market very dull. Closing prices half higher to 1/4 lower. Liverpool due 5-8 to 1/4 lower on Winnipeg.

Dorothy Dix's Letter Box

Are Old Bachelors or Old Maids of More Service To Their Communities? — Can a Spendthrift Husband Be Made to Save? — Birds of a Feather

DEAR MISS DIX—Our school is going to debate the question whether the old maid or the old bachelor is of more benefit to the community. What do you think?

ANSWER:

This is a question to which it is impossible to give a definite answer, because whether the old maid or the old bachelor is of more value to the community depends upon the individual and not upon sex. I have known old bachelors who were little less than angels and who gave their time, talents and their fortunes to helping others and promoting every altruistic movement in the neighborhood in which they lived. And I have known old maids who were gossip and scandal-mongers and stirrers-up of trouble who kept whole communities by the ears.

And, conversely, I have known selfish and crabby and grouchy old bachelors who blocked every forward-looking scheme for the improvement of their communities, and I have known old maids who mothered their environments and who were behind every good work. The general idea seems to be that when a man doesn't marry it is because he was too self-centred and fond of himself to do so. Because he didn't want to burden himself with the support of a wife and children or to curtail his liberty by shackling himself with the fetters of marriage. This is far enough from being true. Many a man would like to marry, but refrains from doing so because of his sense of responsibility to his parents and his younger brothers and sisters.

Perhaps his mother is a widow, or it may be that his father is an invalid or unable to work or just one of the inert who have not the gift of making money. Anyway, there is rent to pay, clothes to be bought, hungry little mouths to feed, and the grown young son takes upon his strong, young shoulders the burden under which the weaker ones are sagging. He puts off marriage until the old parents are gone and the younger children are on their feet, and by that time it is often too late.

His days of romance are gone by, the woman he would have liked to marry has married some one else, and often such a man settles down into being a sort of fairy godfather to the community in which he lives. He is a benevolent uncle who sends boys to college and gives party frocks to pretty girls and lends a helping hand to ambitious youths and bestows coal and groceries anonymously on needy widows and endows hospitals and gives clinics and can always be counted on for liberal subscriptions in every philanthropic drive.

Also, many of the most successful business men are bachelors, and no man does more for his community than he who employs large numbers of men and women and thus gives them the means of making an independent income for themselves.

But what I have said of the bachelor is equally true of the old maid, only more so, for women often sacrifice themselves to their families than men do. Also, women have the mothering instinct so strongly developed that when they have no children of their own they nearly always take the community in which they live to their breasts and are as anxious to improve it and protect it and guard its health as if it were their own offspring.

It is women everywhere who are the pillars of the church and the backbone of every charity. Go where you will, you will find that it is some Miss Susan who has established the public library or some Miss Fanny who is at the head of the league for civic betterment or planting trees or beautifying the town. It is some Miss Kate who has given years of selfless devotion to getting a tuberculosis clinic established. Some Miss Jennie who is giving her life to the care of wayward girls.

Somewhere once said beautifully that God couldn't be everywhere, so He created mothers. And it might be said that mothers and fathers couldn't do everything, so old maids and old bachelors were made to do the work that people with families are too busy to do.

The world would be a poor place with them.

DOROTHY DIX.

DEAR MISS DIX—I have one of the best husbands in the world. We are happy, but there is one thing that we cannot agree on and that is that we should have a little money as we go along. We both work and make good salaries, but he spends it all and we haven't a penny in the bank. I am willing to do without some things I want in order to save a little for the days we may be off of work or sick, but he says that with as many friends as we have there is no use in worrying about the future. He often says that he will be glad when I quit work and keep house for him. I, too, long for that time, but there isn't any hope of its ever coming as long as it takes all that we both make to live on. What can I do?

ANSWER:

Perhaps if you stopped work and threw the whole burden of the support of the family on your husband it would wake him up and make him realize the value of money. A lot of men need responsibility to steady them and the necessity of providing for some one besides themselves to make them put forth their best efforts.

As long as you are working and able to support yourself your husband feels that he doesn't have to save because you are able to look out for yourself. The one argument against the wage-earning wife is that often she slows her husband down. Perhaps that is the case with yours. At any rate you might give him a jolt by giving up your job and turning the bread winning over to him and see what he makes of it.

But one of the hardest things in the world for a woman to do is to sew up the pockets of a spendthrift husband. He is always so sure that it is unnecessary to save and that he will always be well and healthy and able to make money and that there will never be any rainy day in his life.

And he always thinks his wife is such a spoil sport and such a tightwad when she wants to lay up something for the future, and when she points out that they are just as likely to have had luck as the balance of the human race and that if they live nothing can save them from growing old, and no other fate on earth is so terrible as that of old and dependent people. I cannot hold out much hope to you that you will ever be able to reform a waster and a spender. They are hopeless because they are weak and self-indulgent and lack the backbone to say "no" to deadbeat borrowers or to deny themselves any pleasure that they crave.

All that you can do is to keep preaching to him the gospel of thrift, to which he will probably not listen, and point out to him that if he doesn't save and get a start now when he is young he is doomed to be one of those men who live from hand to mouth as long as he lives and who have nothing to show but a few receipts for bills as a result of their years of labor. Sometimes a man of this type, whose money burns in his hand until he spends it, can be gotten interested in buying a house or paying for a bond on the instalment plan. And once they do this they are pleased as Punch with themselves and sometimes become actually penurious.

As for your husband's saying that he doesn't need to save his money because his friends would help him out if he lost his job or got sick, that is the talk of fool. The spender is popular only as long as he spends, and when his money is gone so are his friends.

Nor need one blame them, for what right has the borrower to the money that other people have saved by denying themselves. Nothing is more dishonest than for a man to spend everything that he makes as he goes along on his own pleasure and then expect people who have gone without the things they wanted to support him.

DOROTHY DIX.

DEAR MISS DIX—I have been married for fifteen years to the dearest woman in the world. She has been a good wife to me, but she is not of an affectionate disposition. For five years I have had an affair with another man's wife who fell in love with me. Now her husband has found it out and he has divorced her and left her penniless. She has a child which he let her keep, but she has no home and no way to make a living. Now I am very fond of this woman, too. The fact is that I love her and love my wife and I don't know what to do. My wife is highly educated and is a good wage-earner and could support herself, while the other woman has had little education and never earned a dollar in her life. Which woman is my duty?

ANSWER:

Page Mr. Solomon! Your dilemma is too great for me to solve, though I think I am on the side of law and order and your legal wife if she still wants you.

However, I should think she would be glad to turn you over to the woman who cheated on her own husband. You two seem birds of a feather and at least neither of you could reproach the other with your pasts.

More Workers To Come Under Minimum Wage

Changes in the Minimum Wage Act as it concerns workers employed in manufacturing industries are contemplated this year. It is announced from the Parliament Buildings. To the manufacturing order of the act provision will be made to add to the schedule of learners a list of occupations which are not included at the present time. These are either new vocations or those in which women and girls were not working when the order was put in effect. It is not planned to make any changes in the wages.

The Spanish government is planning to encourage the national production of motion pictures by financial assistance.

AT THE THEATRES

PAUL WHITEMAN AND JAZZ BAND HERE NEXT WEEK

An exact reproduction of one of the most beautiful estates in picturesque Old Mexico was built for the setting of the "Monterey" number of "King of Jazz" starring Paul Whiteman and his orchestra, which will play at the Capitol Theatre all next week.

The reproduction included the beautiful garden and limpid pool of the estate, the tropical banana and palm trees and the high walls that guard it all from curious eyes. In this gorgeous setting John Boles, "the golden voice of the screen," sings the songs of the same name, especially written for Universal's colossal extravaganza by Mabel Wayne.

"Monterey" is one of the loveliest numbers in the all-Movie-tone, all-technicolor super-extravaganza which was directed by John Murray Anderson, noted producer of the "Greenwich Village Follies" and other famous New York musical shows.

COMEDY RELIEVES STRONG TENSION IN CAPITOL FEATURE

Although there is a war in the air and the tragic drama of a group of young flyers in "The Dawn Patrol," the first National-Vitaphone production, starring Richard Barthelmess, now at the Capitol Theatre, there are laughs and humor aplenty.

The laughs in this John Monk Saunders story are provided by Clyde Cook, James Finlayson and Frank McHugh—three noted comics of stage and screen.

"The Dawn Patrol" offers Barthelmess the most intensely dramatic role of his brilliant and varied career. He is supported by an exceptional cast, including Neil Hamilton, Douglas Fairbanks Jr., Gardner James, Edmund Breon, William Janney and many others. The feature required twice the usual production time and cost double the usual Barthelmess feature.

Hamilton MacFadden and Marion Orth took the stage play, "In Love With Love," and their skilful adaptation and sparkling dialogue greatly enhanced the entertaining value of the Vincent Lawrence story.

Where To Go To-night

As advertised
ON THE SCREEN
Capitol—Richard Barthelmess in "The Dawn Patrol."
Coliseum—"Rookery Nook" with Ralph Lynn.
Columbia—Ken Maynard in "The Fighting Legion."
Dominion—"The Arizona Kid," starring Warner Baxter.
Playhouse—Joan Bennett in "Crazy That Way."
Crystal Garden—Swimming and Dancing.

ARIZONA PICTURE WITH FINE CAST AT THE DOMINION

"It was a long way from Hollywood but I was never so happy." Mona Maris, the Argentine beauty who scored so heavily in "Romance of Rio Grande" with Warner Baxter, was speaking of her experiences in filming "The Arizona Kid," a great outdoor romance on Movietone in which she again appears opposite Baxter, and which is now showing at the Dominion Theatre.

"It was all much of a surprise," Miss Maris said. "Although I have been in this country for a year and a half, I had never been away from the big cities. As a child I used to see 'Westerns' and wonder if such scenery really existed, and even on making 'Romance of Rio Grande,' I never got much beyond a barren desert."

Screen fans who enjoyed "In Old Arizona," Baxter's first western talkie, are sure to be delighted with "The Arizona Kid," according to preview reports. The picture has a supporting cast of such virtues as Carol Lombard, Mrs. J. H. Hines, Theodore Van Elza and Arthur Stone.

DOROTHY DWAN IS APPEARING WITH COLUMBIA ACTOR

"The Fighting Legion," Universal-Ken Maynard Western thriller, now showing at the Columbia, brings to the talking screen for the first time one of the most popular stars of the pre-sound days, Dorothy Dwan, whose husband, the late Larry Remick, a comedian, died more than a year ago.

Miss Dwan's grief over the death of her husband was so poignant that she believed that she could have faced a camera again. She was in "The Fighting Legion" by Maynard himself, with whom she appeared in two pictures several years ago.

LONDON COMEDIANS IN "ROOKERY NOOK" AT COLISEUM AGAIN

The famous London comedy team, Ralph Lynn, Tom Walls and Mary Brough which have been playing together for the last six years at the Aldwych Theatre, London, will be seen in one of their greatest successes for the next three nights at the Coliseum, "Rookery Nook," which had a tremendous reception when recently shown here owing to the many requests of Victorians who had not seen it and many who would like to see it again.

Those who want a good hearty laugh in a film comedy version of a very big stage success and see the best team in England acting in comedy, should not miss this picture. In addition to this fine attraction, Mr. McGrath will stage another of his little comedies, called the Coliseum trio, including Miss Helen Ockendon at the piano, Gilbert Margison, violin, and Mr. McGrath at the vocal end. The special items to-night will be Rachmaninoff's "Prelude in C Minor," by Miss Ockendon, "Moment Musical," by Mr. Margison, and "In a Monastery Garden," sung by Mr. McGrath, accompanied by piano and violin.

FORTY-FOUR HOUR WEEK
Toronto, Aug. 21.—The attitude of local trade unions regarding the unemployment situation is that the forty-hour week is the most logical solution of the problem, stated W. Buckley, secretary of the Toronto and District Trades and Labor Council, in announcing the result of a questionnaire sent to trade unions requesting as to how unemployment might be relieved.

SWINE AT FAIR OF FINE TYPE

Leading Breeds of Pigs on View at Willows Exhibition

Excellent types of swine are on view at the Willows Fair, with Yorkshire, Tamworth, Duroc Jersey and Berkshire in a majority. The tendency towards the distinctive bacon hog is notable, a majority of the pigs shown being of the medium size preferred by curers of bacon. There are a number of very large animals in the show, notably a pen exhibited by Robert M. Ball, the aggregate of three animals being little short of one ton. Prizes announced yesterday evening were:

YORKSHIRES
Boar, 2 years and over—Robt. M. Ball.
Boar, 1 year and under—Robt. M. Ball.
Boar, 6 months and under 12 months—Robt. M. Ball.
Boar, over 3 and under 6 months—1, 2 and 3, Robert M. Ball; 4, H. G. Cuth; 5, 6, Robert M. Ball.
Sow, 2 years and over—1 and 2, Robert M. Ball.
